1 Welcome to AAICBI

This guide helps you create an account, find your way around and make the most of your learning.

What the AAICBI Ecosystem is

The AAICBI Ecosystem is a learning and opportunity platform from Africa's AI Capacity Building Initiative, organised by Futybills Tech Community. Training organisations teach courses on it. Employers, investors and startups use it to find talent and ideas. You use it to **learn**, to **practise**, to **connect** with other learners and to **build a profile** that others can find.

What you can do after creating an account

- Study **courses** you are enrolled in, with lessons, practice and assessments.
- Take **examinations** and **assignments** and read your results and feedback.
- Earn **certificates** that anyone can verify.
- Play educational **games** and, where your course allows it, challenge a coursemate in the **Ayakbi Arena**.
- Chat with coursemates in the **course chat** and send **messages** to instructors and organisations.
- Complete a **profile** with your skills, education and projects, and choose who can see it.
- Read and write posts in the community **Feed**, and explore organisations, jobs and events.
- Ask **Loop**, the friendly guide, how anything works.

Using the platform responsibly

- Be kind and respectful in chats and posts. Moderators can remove messages and limit play when rules are broken.
- Keep your password private. Never share it, not even with someone who says they work for AAICBI.
- Share personal details carefully. Your profile can be public — see Chapter 4.
- Do your own work in examinations and assignments.

> **TIP**
> You can use AAICBI on a computer, tablet or phone. This manual shows the computer and the phone side by side wherever they differ.

2 Creating Your Account

Choose the Trainee account, fill in the form, confirm your email and sign in.

TASK

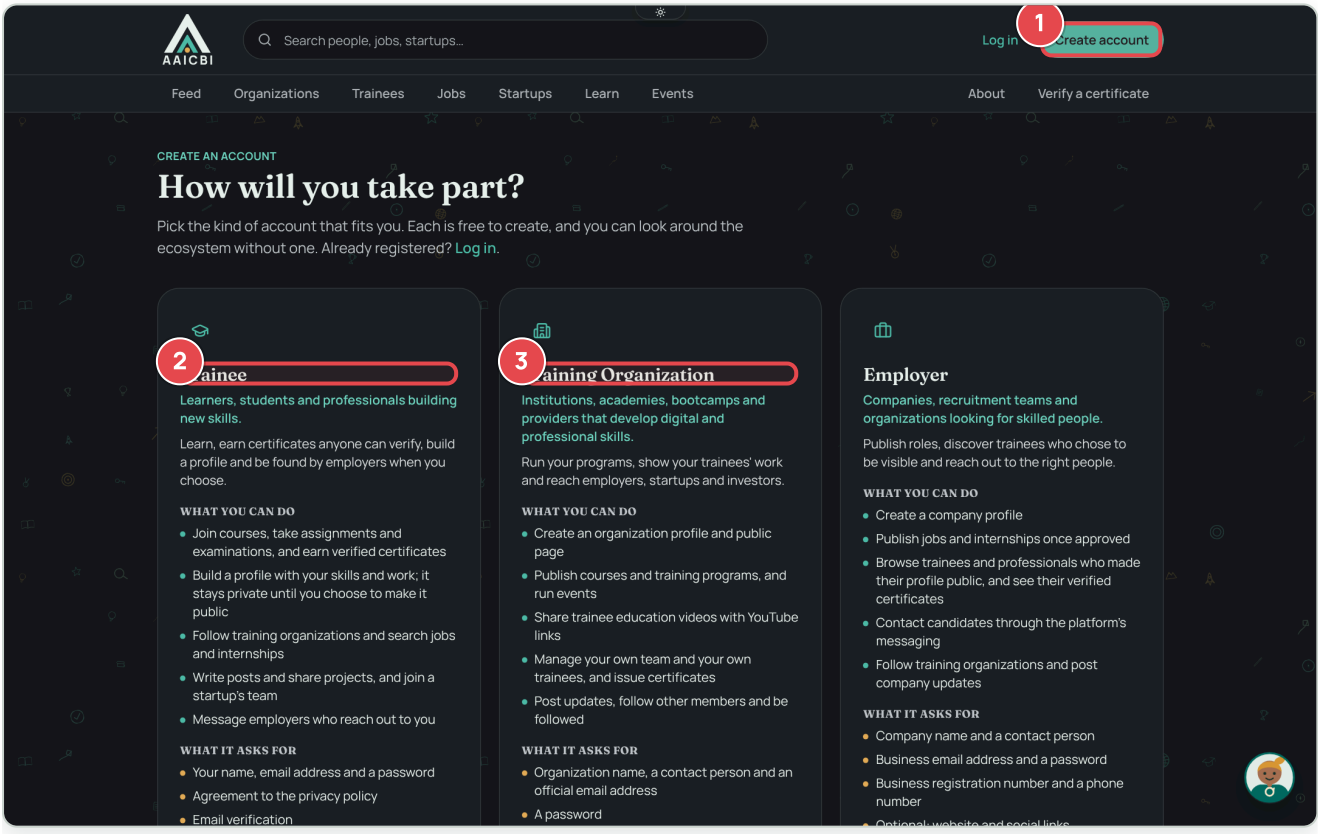

Choose the Trainee account type

Purpose Each kind of person has their own sign-up. The Trainee account is for people who learn.

Steps

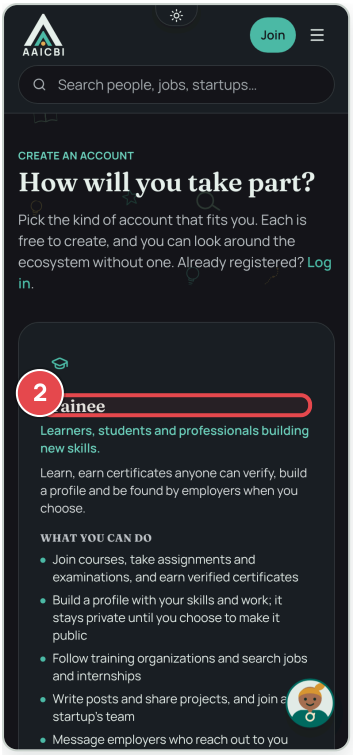

1. Open the AAICBI Ecosystem in your browser.
2. Select **Create account** at the top right of the page (or open the **Join** page).
3. Find the **Trainee** card (the first card) and select **Create a Trainee account**.

Expected result The **Create Your Account** page opens.

1. **Create account** opens the Join page from any page.
2. The **Trainee** card is for learners.
3. The **Training Organization** card is for organisations that run courses.

COMPUTER

PHONE

2 The **Trainee** card is for learners.

3 The **Training Organization** card is for organisations that run courses.

Figure 1. The Join page. Choose **Trainee** if you are a learner. The other cards are for training organisations, employers, investors and startup founders.

TASK Fill in the registration form

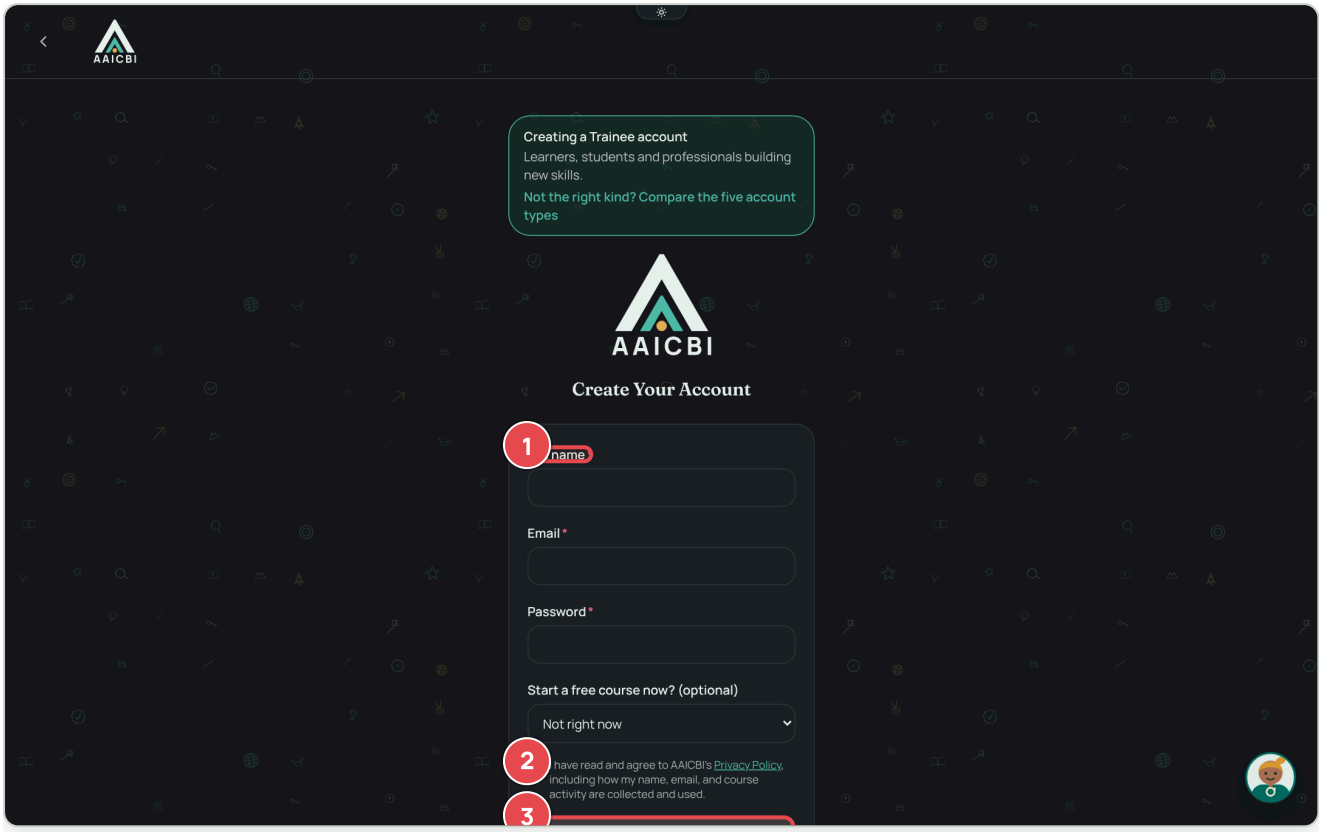

Before you begin You need an email address you can open right now, and a password of at least 8 characters.

Steps

1. Type your **Full name**.
2. Type your **Email**.
3. Choose a **Password** (at least 8 characters).
4. If you see **Start a free course now? (optional)**, pick a free course or leave it on **Not right now**.
5. Read the **Privacy Policy** (the link opens it) and tick the box **I have read and agree to AAICBI's Privacy Policy**. The **Create account** button stays grey until you do.
6. Select **Create account**.

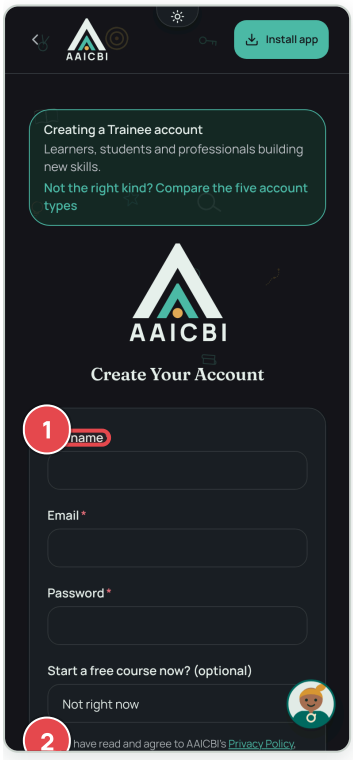

Expected result A **Check your email** page tells you a verification link has been sent.

If it does not work A red message under the form explains what to fix (for example an email that is already registered). If the button does not respond, make sure the Privacy Policy box is ticked. You can also choose **Sign up with Google** if that button is shown.

1. Your **Full name**, **Email** and **Password**.
2. Tick the Privacy Policy box.
3. **Create account**.

COMPUTER

PHONE

1. Your **Full name**, **Email** and **Password**.
2. Tick the Privacy Policy box.
3. **Create account**.

Figure 2. The trainee registration form.

TASK

Verify your email and sign in for the first time

Purpose Verification proves the address is yours and activates your account.

Steps

1. Open your email inbox and find the message from AAICBI.
2. Open the verification link in the message. A page confirms **Email Verified**.
3. Select **Sign in** (or open the trainee sign-in page).
4. Enter your **Email** and **Password** and select **Sign in**.

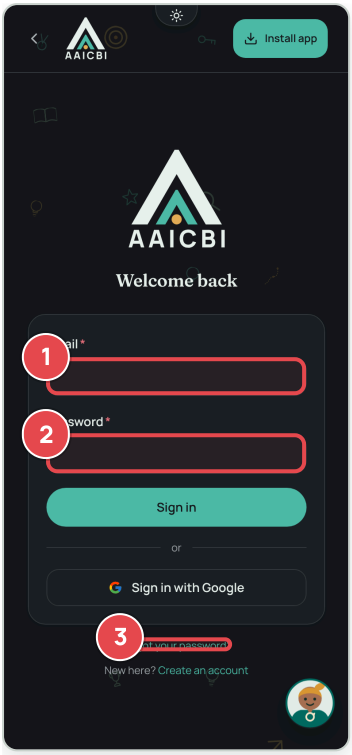

Expected result You arrive on your trainee dashboard.

If it does not work No email? Check your spam or junk folder. Right after you register you are taken to the sign-in page, which shows **Your account is created. Verify your email to finish.** with a **Send the link again** button — select it. If **Verification Failed** appears the link may have expired; use **Send the link again**. Still stuck? See Chapter 12.

1. Your **Email**.
2. Your **Password**.
3. **Forgot your password?**

COMPUTER

PHONE

1. Your **Email**.
2. Your **Password**.
3. **Forgot your password?**

Figure 3. The trainee sign-in page. **Forgot your password?** is under the form.

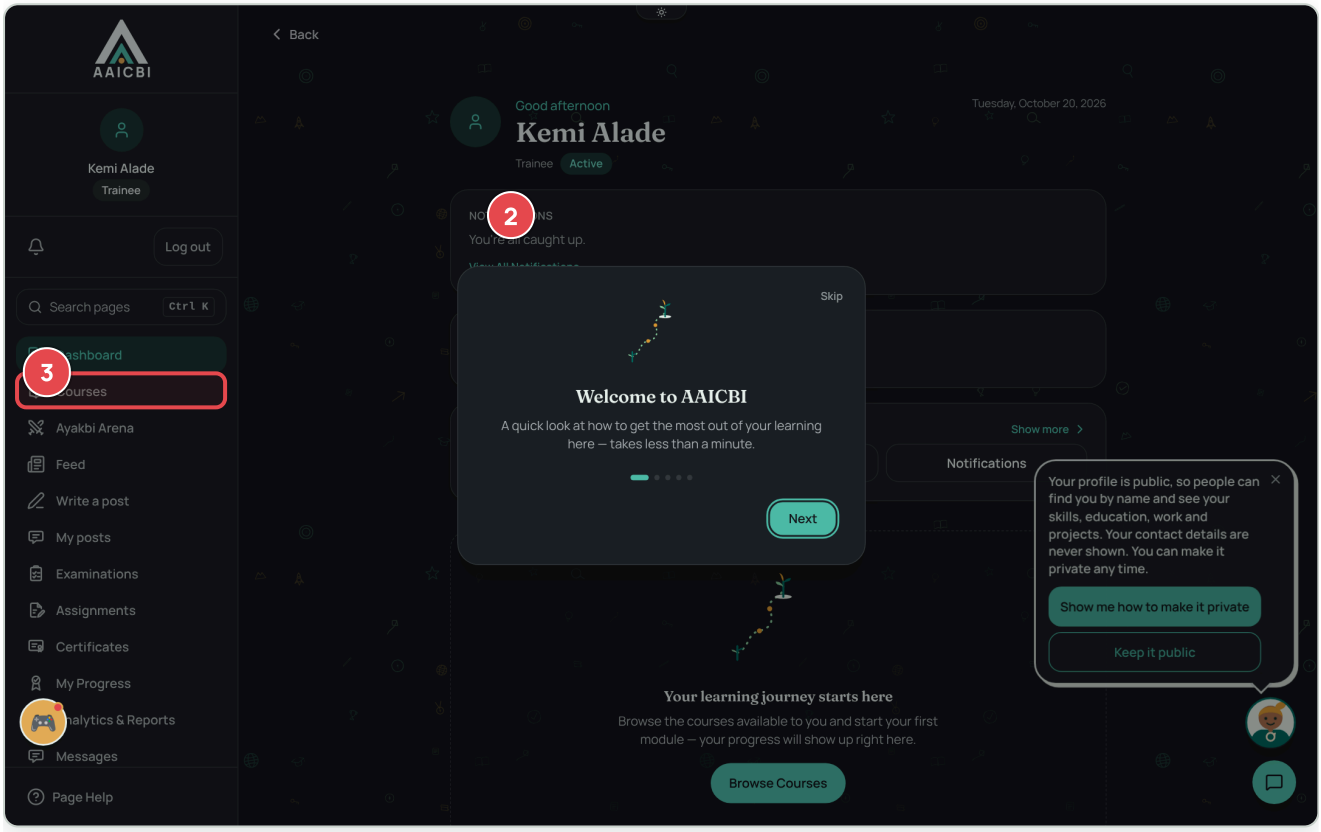

IMPORTANT

Use only the real AAICBI address in your browser, and never type your password into a page you reached from an unexpected message.

3 Exploring the Trainee Dashboard

Your dashboard is the first page you see after signing in. It shows what to do next.

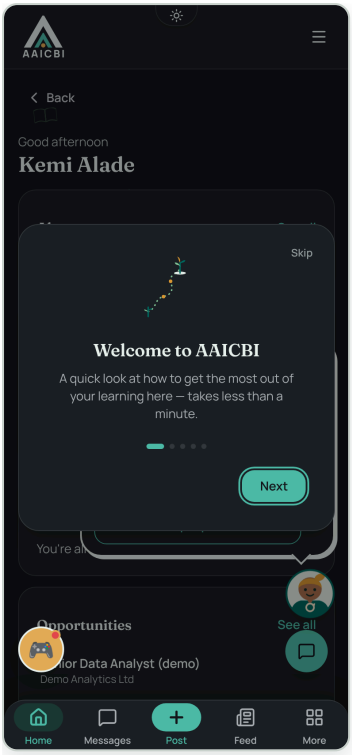

What is on your dashboard

2 **Notifications** with **View All Notifications**.

3 The menu: **Courses** and the other sections.

COMPUTER

PHONE

Figure 4. The trainee dashboard on a computer (left) and on a phone (right).

Part of the page	What it shows	What you can do
Chat is live cards	A course group chat with new messages, with a short preview and a count such as "4 new".	Select **Open chat** to read and reply, or **Later** to dismiss the card for now.
Continue learning / course card	The course you were studying, a progress bar such as "1 of 1 module complete", and a tag such as **PAID** or **FREE**.	Select **Resume** to continue where you stopped.
Your examinations	How many examinations are **Available**, **In progress** and **Passed**.	Select **View all** to open the full list.
Notifications	Your latest alerts and a count of new ones.	Select an alert to go to the page it is about, or **View All Notifications**.
Your certificates	Certificates you have earned.	Open one to download or share it.
Also in progress	Other courses you have started.	Select a course to continue.

The left menu on a computer

Menu item	What it opens
Dashboard	This page.
Courses	The courses you are enrolled in (Chapter 6).

Menu item	What it opens
Ayakbi Arena	Challenge a coursemate and join the course chat, where it is switched on (Chapters 7 and 8).
Feed, **Write a post**, **My posts**	The community feed and your own posts (Chapter 10).
Examinations	Your examinations and results.
Assignments	Written work from your instructors.
Certificates	Certificates you earned.
My Progress	How far you are in each course and what to work on next.
Analytics & Reports	Your learning activity over time.
Messages	Conversations with instructors and organisations.
Page Help	Help for the page you are on.

At the top of the menu are your name and **Trainee**, the **bell** for notifications, **Log out** and **Search pages** (press **Ctrl + K**). Some further pages are reached from other places: **Explore**, **My profile**, **Settings**, **Job board**, **My videos**, **Introductions**, **My startups** and **Report a concern**.

Using the dashboard on a phone

On a phone the left menu becomes a bar at the bottom of the screen with your most-used items and a **More** button that opens everything else. The bell and **Log out** are in the top area. Tables become stacked cards, and the **Post** button is a round button in the middle of the bar.

TASK

Open your dashboard from anywhere

Steps

1. Open the AAICBI Ecosystem and sign in.
2. On a computer select **Dashboard** at the top of the left menu. On a phone choose the first button of the bottom bar.
3. Use **Back** (top left of the page) to return to the previous page at any time.

Expected result Your name, your courses and your notifications appear.

Notifications and activity indicators

A red number on the **bell** (and on the **Messages** button) shows new items. Selecting the bell lists alerts such as challenges, replies, decisions and course updates. Reading them clears the number. If you allow phone notifications, the same alerts reach your phone even when AAICBI is closed.

> **TIP**
> The round **Loop** button at the bottom right opens a guide. Ask it a question such as “where are my certificates?” and it can take you there.

4 Completing Your Profile

Your profile is how organisations, employers and other members get to know you. You decide who can see it.

What your profile contains

Part	What to add
Name, photo and handle	Your name, a profile picture and your **Username (your handle)**, which becomes your public address, for example `@your-name`.
Details	**Location**, **LinkedIn**, **GitHub**, **Portfolio website**, **Current employment status** and an **Open to work** switch.
Skills	Add a skill (for example Python) and choose a **Skill level**.
Education	**Institution**, **Field of study**, **Credential** and dates.
Work experience	**Job title**, **Employer**, **Description** and dates.
Projects	**Project title**, **Description**, a **Link**, and an option to **List in Community Showcase**.
Profile visibility	Who may see your profile.

TASK

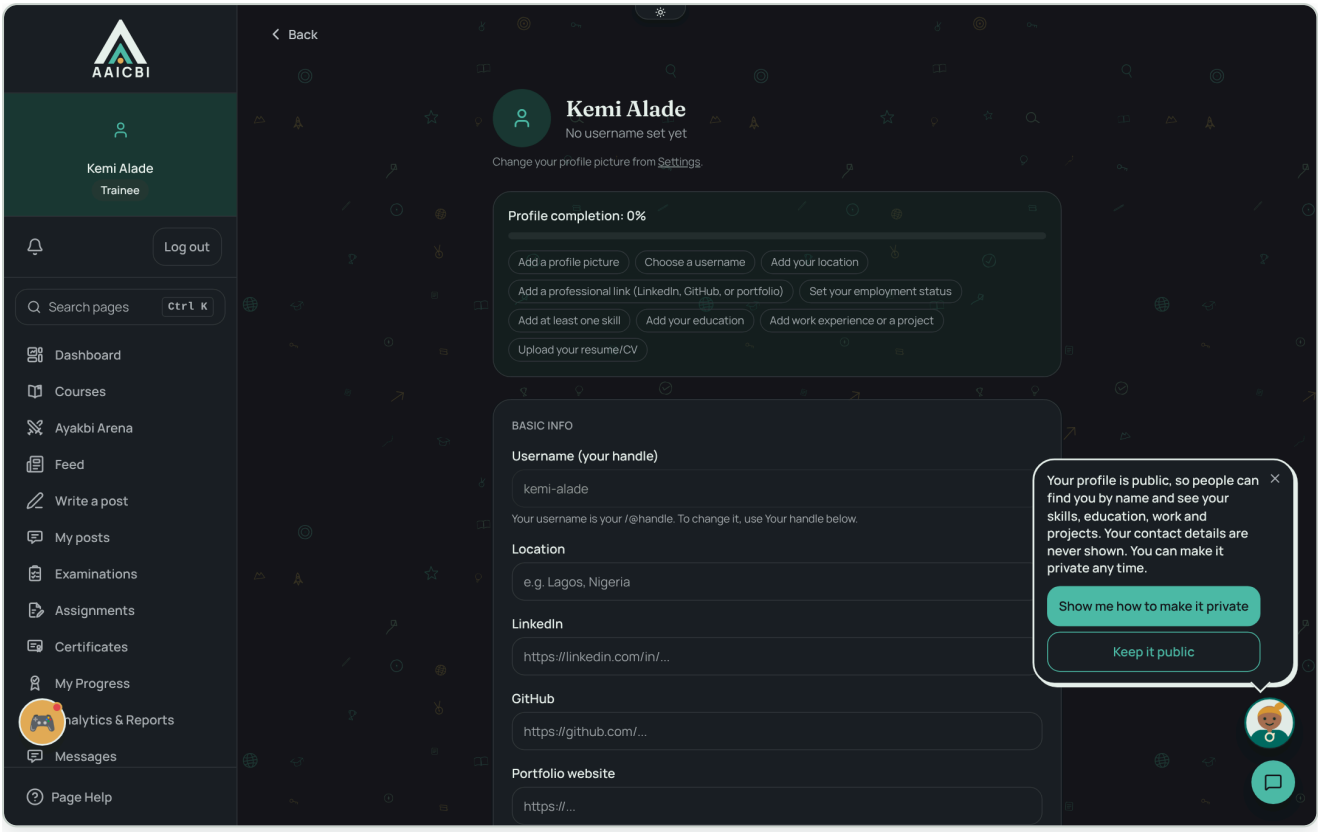

Edit your profile

Steps

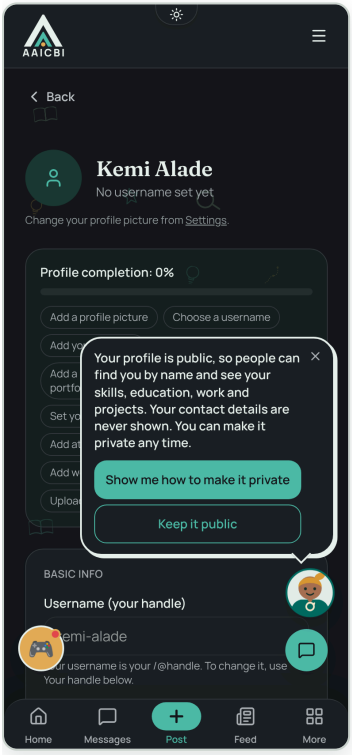

1. Open **My profile** (from **More** on a phone, or from the account menu on a computer).
2. Update your details and select the save button of each section.
3. To add a skill type it under **Add a skill**, choose a **Skill level** and add it.
4. To add education, experience or a project use the **Add** button of that section.

Expected result The new information appears on your profile straight away.

If it does not work If a handle is refused it may already be taken or contain characters that are not allowed; try another.

COMPUTER

PHONE

Figure 5. My profile.

TASK **Upload a profile picture**

Steps

1. Open **Settings**.

2. Find **Profile Picture**.
3. Choose a picture from your device and confirm.

Expected result Your picture shows next to your name across the platform.

Choosing who can see your profile

Under **Profile visibility** choose who may see your profile: **Public**, signed-in members only, employers only or **Private**. A new account starts as **Public** so that people can find you. You can change this at any time.

IMPORTANT
Think before you share. Do not put your home address, phone number, passwords, identity-document numbers or bank details in your profile, posts or chats.

Keeping personal information safe

- Share only what you are comfortable with strangers seeing if your profile is public.
- Use **Private** or **employers only** if you prefer.
- Never share your password with anyone.
- Use **Report a concern** if someone asks you for private information.

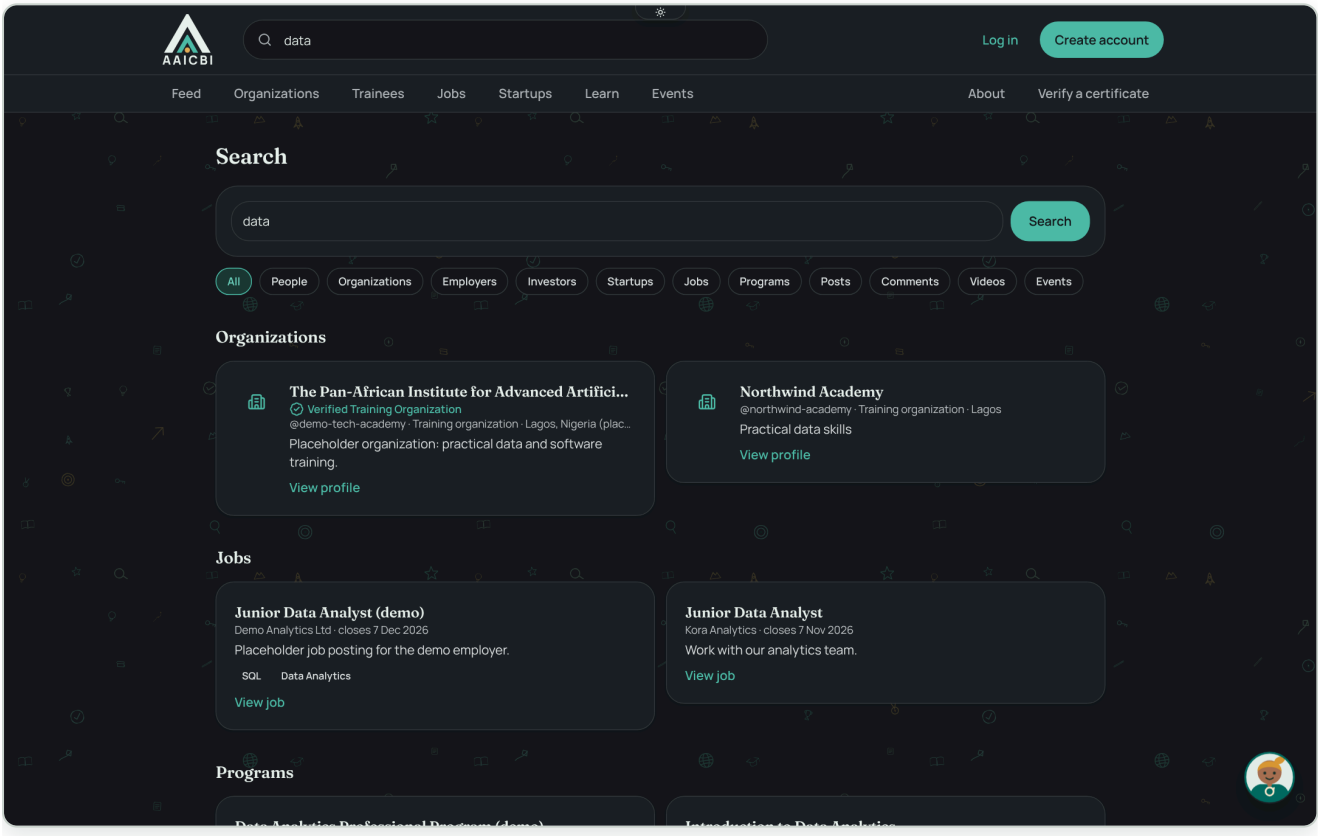

In **Settings** you can also turn on **Employer discoverability** (let employers find you, with a headline and certificates you choose), see your **Public Profile Link**, and set **Low-bandwidth mode**.

5 Finding Organisations, Courses, and Opportunities

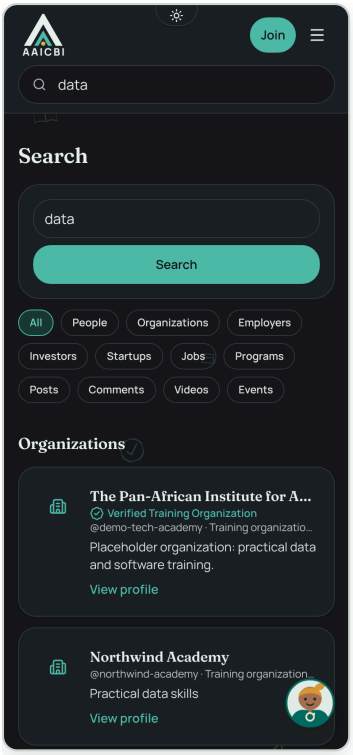

How to search, how to look at profiles, and how joining a course really works.

Searching

Use the search box at the top of public pages, or **Search pages** (**Ctrl + K**) inside your dashboard. Type a word and select **Search**. Use the buttons **All**, **People**, **Organizations**, **Employers**, **Investors**, **Startups**, **Jobs**, **Programs**, **Posts**, **Comments**, **Videos** and **Events** to narrow the results. Select a result to open its profile.

COMPUTER

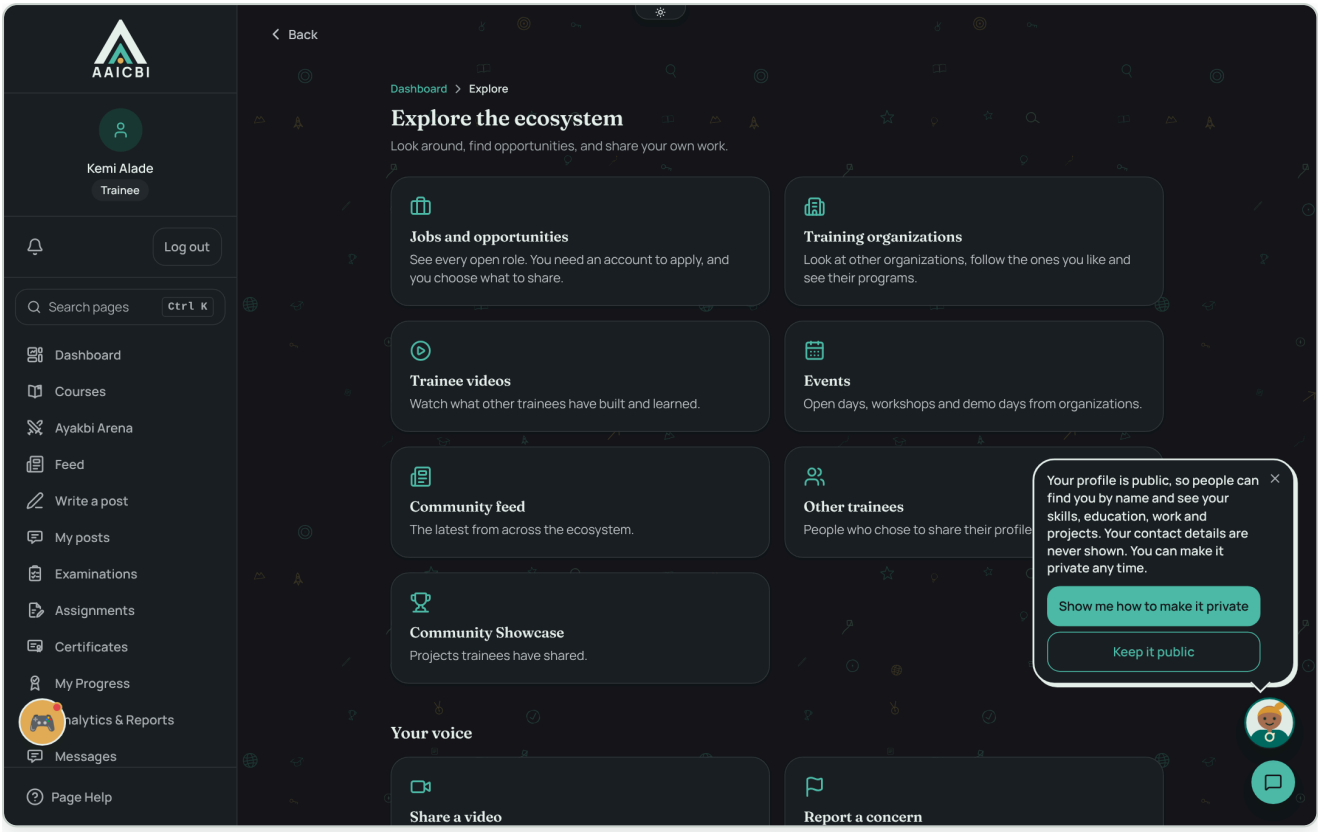

PHONE

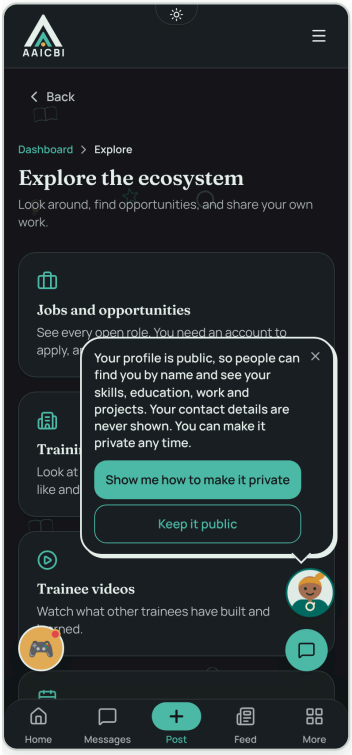

Figure 6. Search results for “data”.

Finding training organisations, jobs and events

- **Explore** (trainee menu) puts organisations, jobs and events in one place.
- **Organizations** (public pages) lists training organisations; open one to see its tagline, programmes and events, and to follow it.
- **Job board** lists open jobs from the platform’s employers, with apply buttons.
- **Events** lists events announced by organisations.

COMPUTER

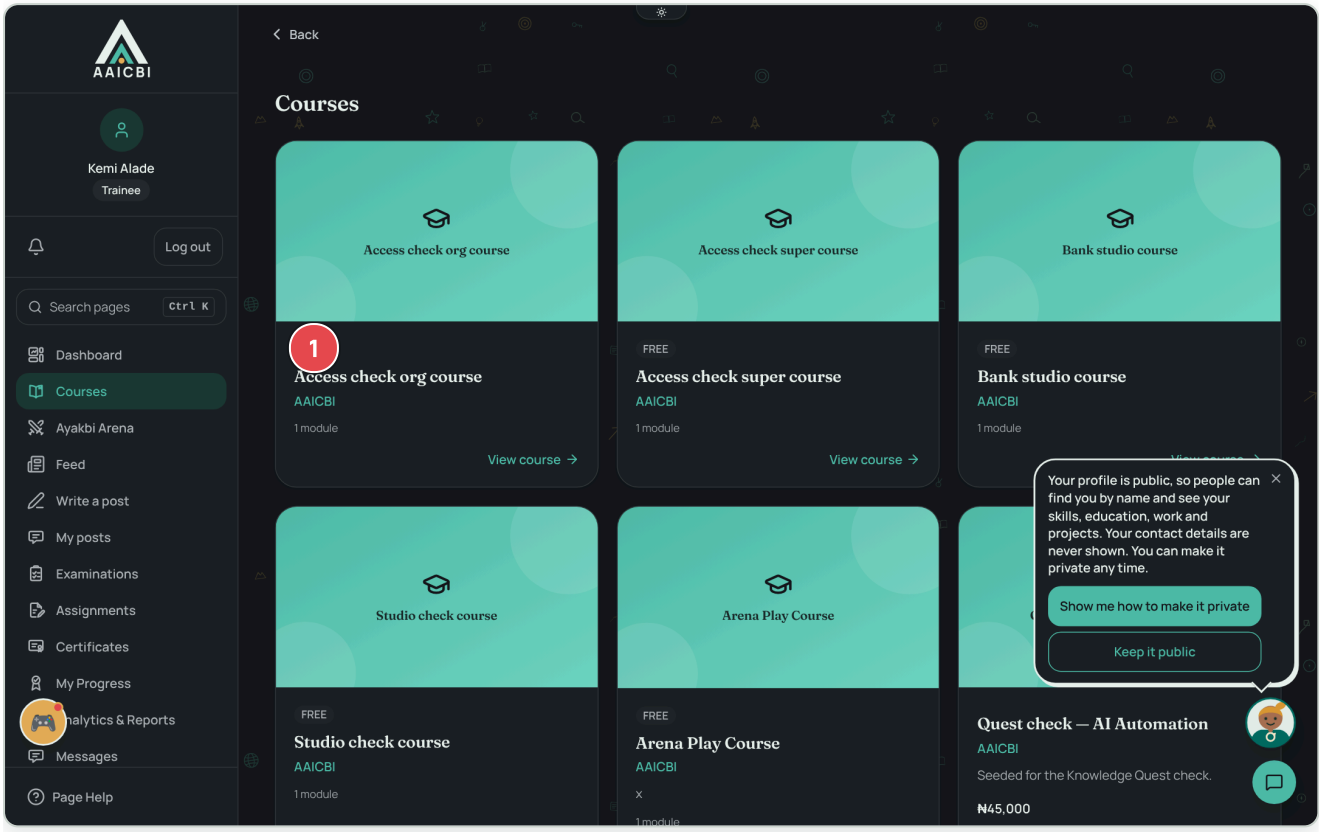

PHONE

Figure 7. Explore: organisations, jobs and events in one place.

Finding courses

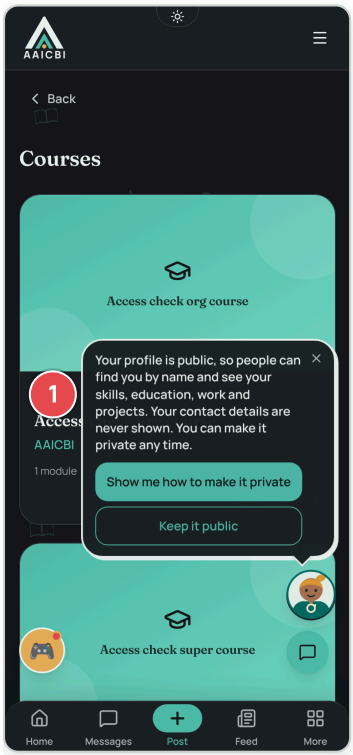

Open **Courses** in your menu. It lists the courses available to you as cards. Each card shows a picture, **FREE** or **PAID**, the organisation that runs it and the number of modules. A course you are already in

shows **Continue learning**; any other shows **View course**.

1 **FREE** or **PAID** tag.

COMPUTER

PHONE

1 **FREE** or **PAID** tag.

Figure 8. Courses. Cards for courses you are in say **Continue learning**.

How joining a course works

TASK **Join a course**

Purpose Get access to the lessons, practice and assessments of a course.

Steps

1. Open **Courses** and select **View course** on a course that interests you.
2. Read the course page. If the page says "You're not enrolled in this course yet", look at the line beneath it.
3. For a **free** course the page says it is free: select the enrol button to get started.
4. For a **paid** course the page shows the price and says you will pay securely through Paystack. Some courses also offer a free preview of the first modules.
5. If your training organisation has arranged access for you, ask them to **Grant Access** using the email address you registered with. The course then appears for you.

Expected result The course page changes to show your lessons and a progress bar, and the course appears on your dashboard.

If it does not work If you cannot pay or the button shows an error, read the red message under it. Do not pay twice; contact your organisation or support (see **Getting help**).

LIMITATION

Joining is not always automatic. Free courses can be joined by you; paid courses need payment; and some access is granted by your training organisation. The platform does not let you join an organisation just by clicking — its courses are how you take part.

Other opportunities

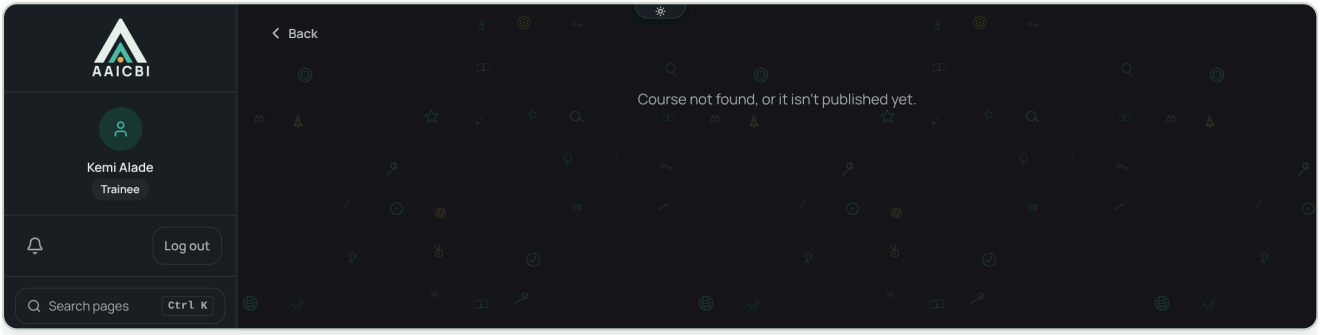

- **Introductions**: employers who want to meet you send requests here; you can accept or decline.
- **My videos** and **Video requests**: organisations may ask to present your project in a video; you approve or decline.
- **My startups** and pitches: for founders and trainees with a startup idea.

6 Participating in Training Activities

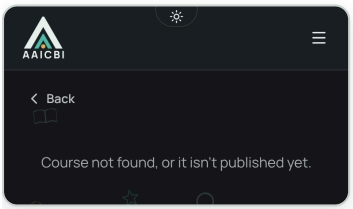

Studying a course, practising, taking assessments and reading your results.

Opening a course

From **Courses** or from the course card on your dashboard, select **Continue learning**. The course page lists its **modules**. Each module has **lessons** (reading materials and videos), **practice** and an **assessment**. Complete the lessons to move on; some modules unlock one after another.

COMPUTER

PHONE

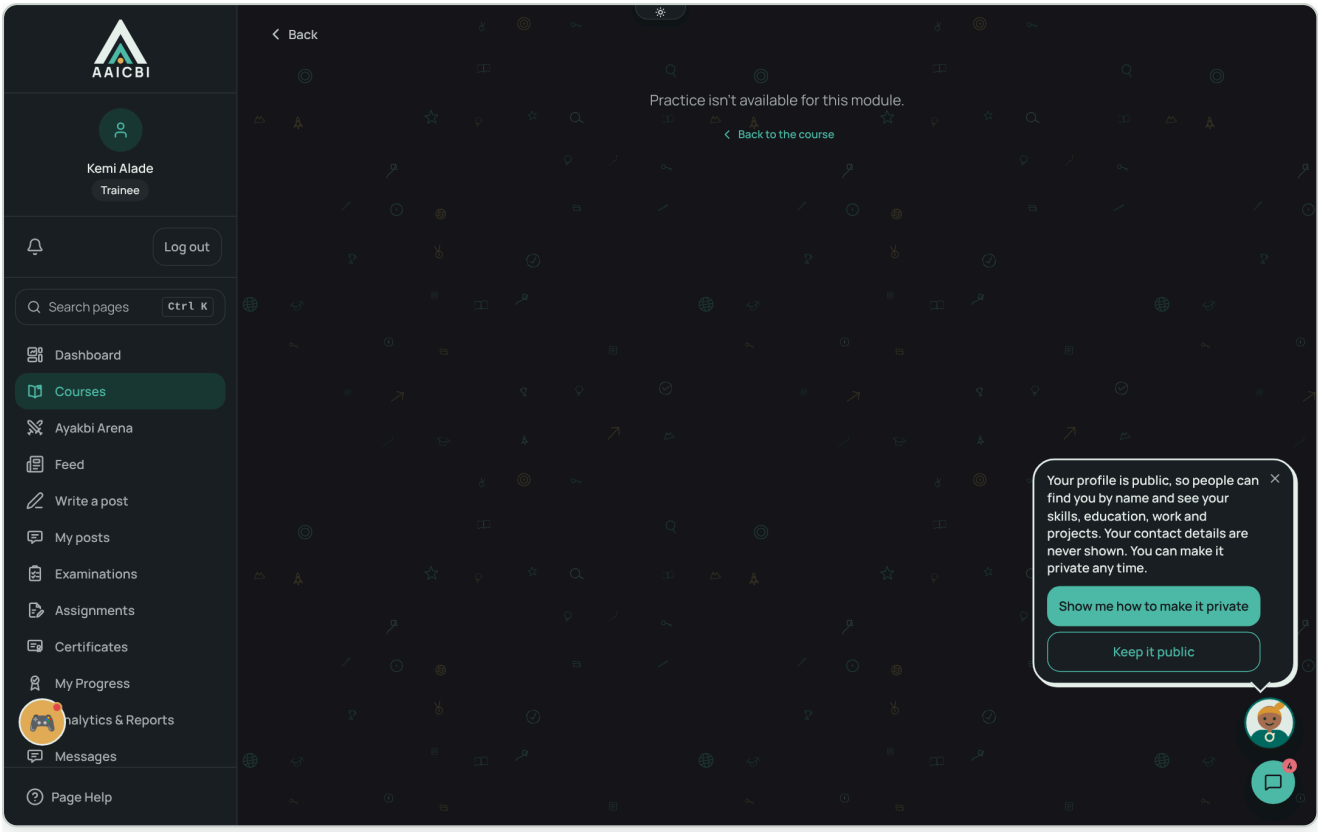

Figure 9. The top of a course page with its modules (the page continues further down).

Lessons and resources

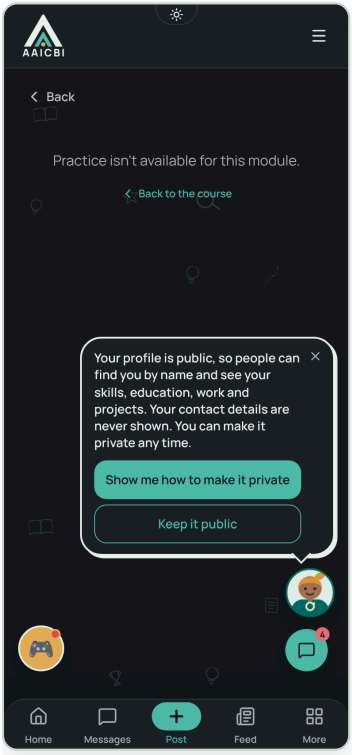

Open a lesson to read or watch it. Videos play inside the page. Materials you can save for offline study appear under **My downloads**. On each lesson you can use **Q&A** to ask a question; your instructor and coursemates can reply.

Practice

Practice lets you answer questions without any pass or fail. It plays in short rounds with encouraging messages, and shows the correct answer and an explanation after each question. Nothing in practice counts against you.

COMPUTER

PHONE

Figure 10. Practice for a module.

Assessments and examinations

TASK

Take a module assessment

Before you begin You have finished the lessons of the module and the assessment is available.

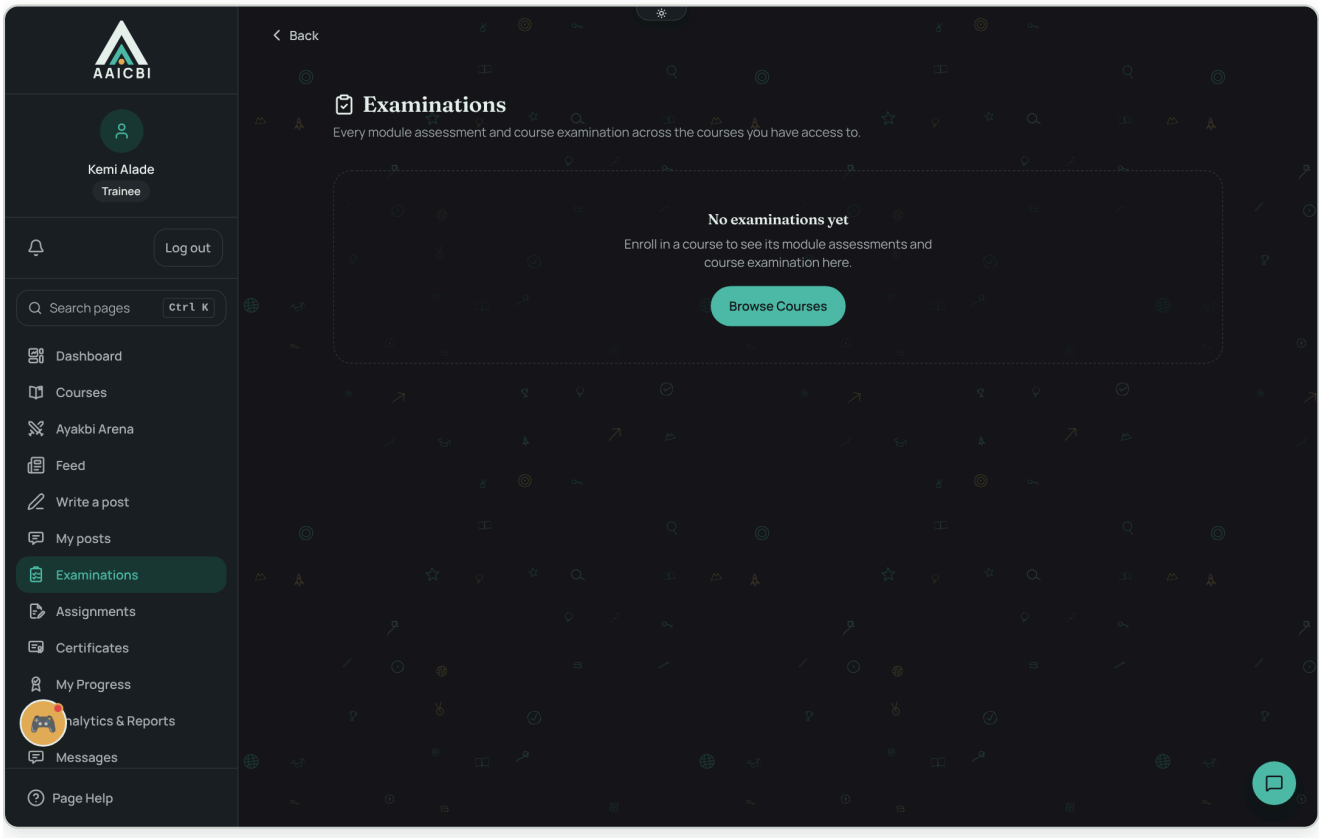

Steps

1. Open the course and the module, then select **Assessment**.
2. Read the instructions: the number of questions, time allowed, attempts and the **pass mark**.
3. Select **Start** and answer each question.
4. Submit when you finish.

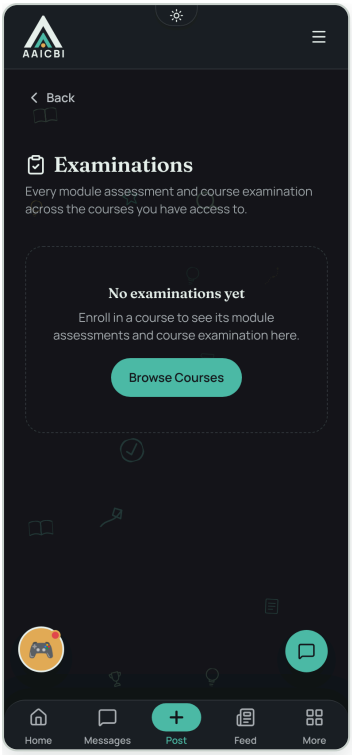

Expected result You see a result page with your score and whether you passed.

If it does not work If the timer ends the attempt is submitted automatically. If you lose your connection, reconnect and reopen the assessment from **Examinations**.

Examinations in the menu lists every module assessment and course examination you have access to, with the number of questions, duration, attempts, pass mark and your status (for example **Available** or **Passed**). Select **Start** to begin or **View result** to see a past result.

COMPUTER

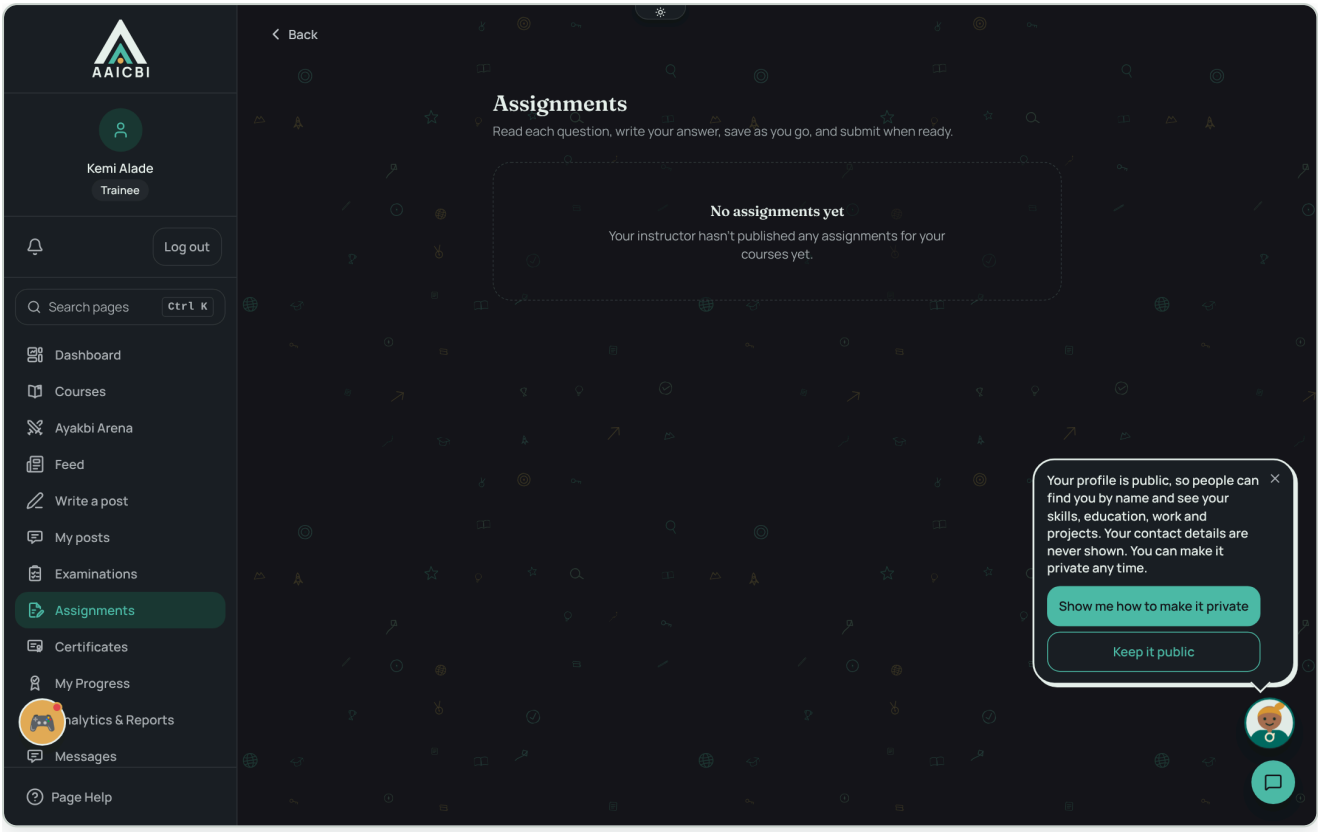

PHONE

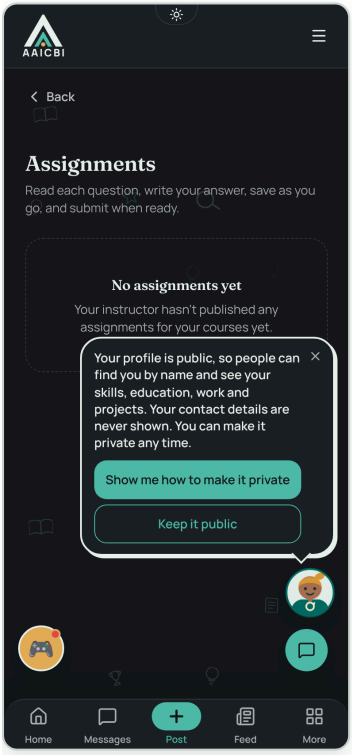

Figure 11. Examinations: your assessments and results in one table.

Assignments and certificates

- **Assignments** shows written work set by your instructors. Submit your answer and read the feedback afterwards. Pasting text into answers is blocked, so write your own words.
- **Certificates** lists certificates you earn when you complete a course. Each has a link anyone can use to verify it.

COMPUTER

PHONE

Figure 12. Assignments.

Progress, announcements and messages

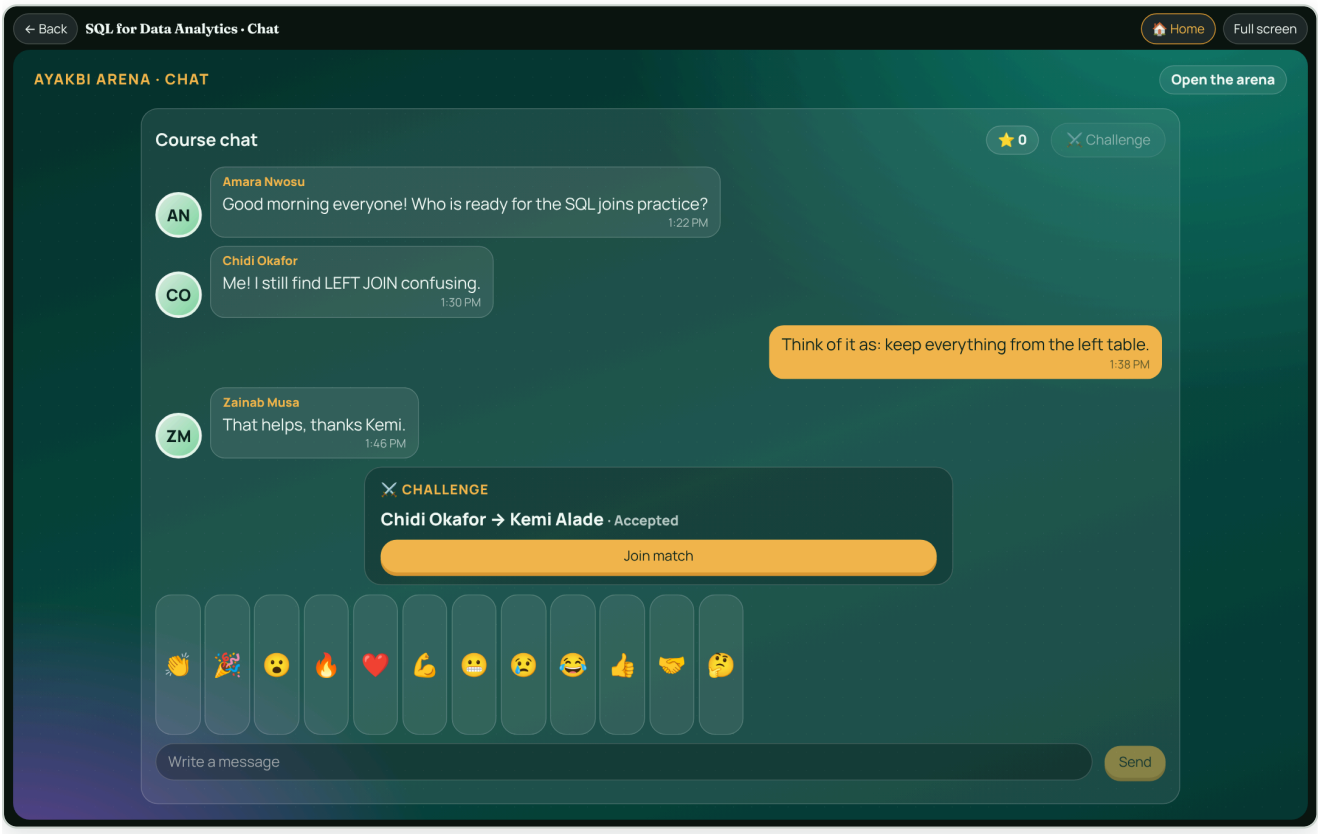

Your progress bar on each course shows modules completed. Course news arrives as notifications and in **Messages**. See Chapter 9 to understand your results.

7 Using Group Chats and Community Features

Talking with coursemates, asking questions and keeping chat friendly.

The course group chat

Each course can have a group chat for the people enrolled in it. It appears only when the AAICBI team has switched it on for your course. You can reach it from **Ayakbi Arena**, from the **Chat is live** card on your dashboard, or from the course page.

COMPUTER

PHONE

Figure 13. The course chat: messages from coursemates, challenge cards and reactions.

TASK **Send a message in the course chat**

Steps

1. Open **Ayakbi Arena** and choose your course, then open the chat. (Or select **Open chat** on a **Chat is live** card.)
2. Type your message in the box at the bottom. Messages can be up to 500 characters.
3. Select the send button.
4. To react without typing, use the reaction row (one tap posts a large emoji).

Expected result Your message appears in the chat for everyone enrolled in the course.

If it does not work If you cannot post, you may be paused by a moderator (the page shows why and until when), or the chat may be switched off for your course.

Asking good questions

- Say what you tried and where you got stuck.
- Use the lesson **Q&A** for questions about one lesson, so everyone can find the answer later.
- Use **Messages** for private questions to your instructor.

Respectful conduct

- Be kind. No insults, threats or bullying.

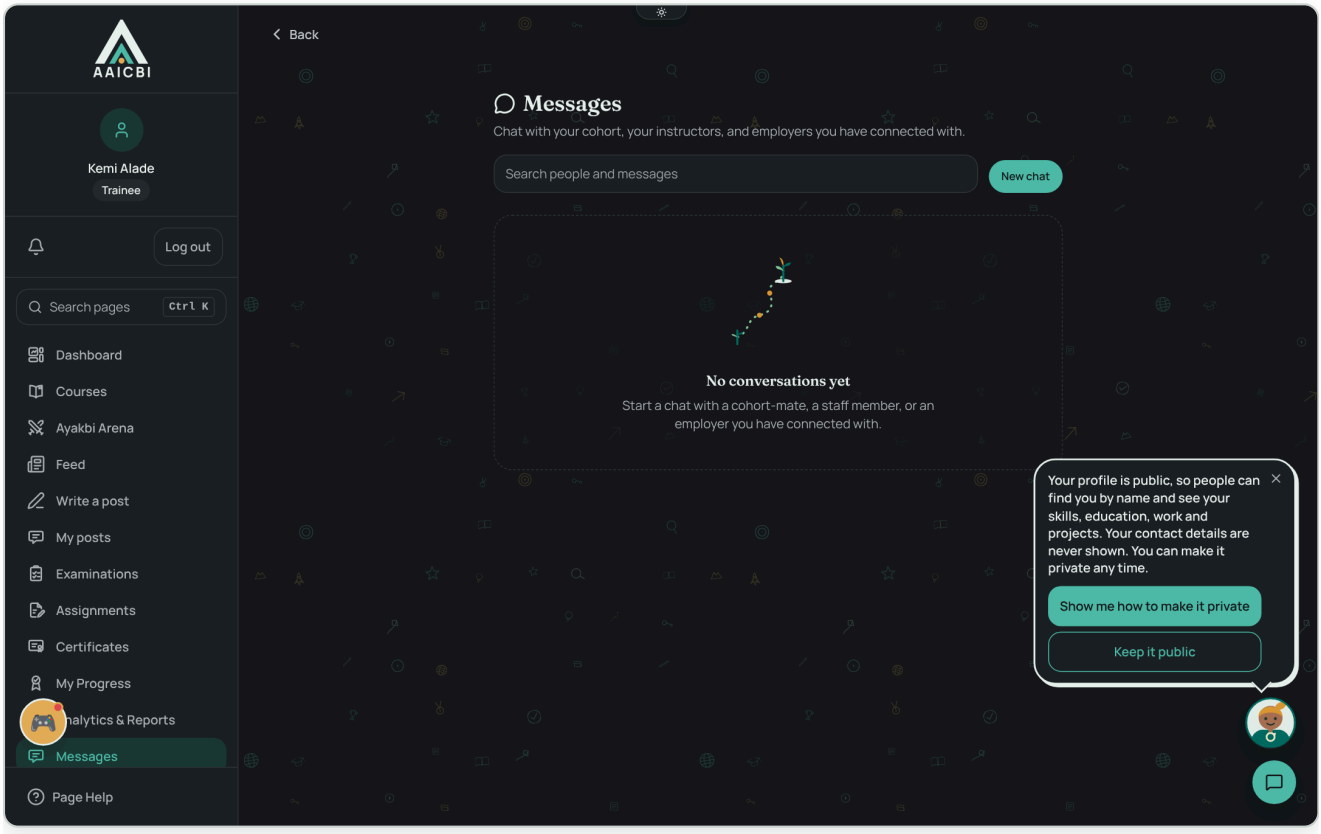

- Do not share answers to assessments.
- Do not share other people's private information.
- Moderators can remove messages, pause your participation or end a game. Every decision is recorded with a reason.

Who is online

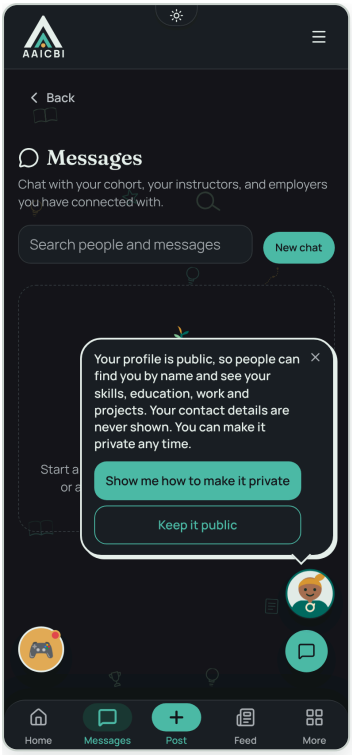

The arena shows who is online in your course and lets you challenge them. Anyone signed in with the app open counts as online.

Notifications and messages

The bell shows alerts; the round **Messages** button (bottom right) opens one inbox with your course group chats, cohort chats and direct messages. You can start a new direct message with the plus button. A number on the button or on the app icon shows unread messages.

COMPUTER

PHONE

Figure 14. Messages.

Reporting inappropriate behaviour

- During a game, use the report option in the match.
- For a person or profile, open **Report a concern** and describe what is wrong.
- For anything urgent, message your instructor or organisation.

Chat rules and moderation

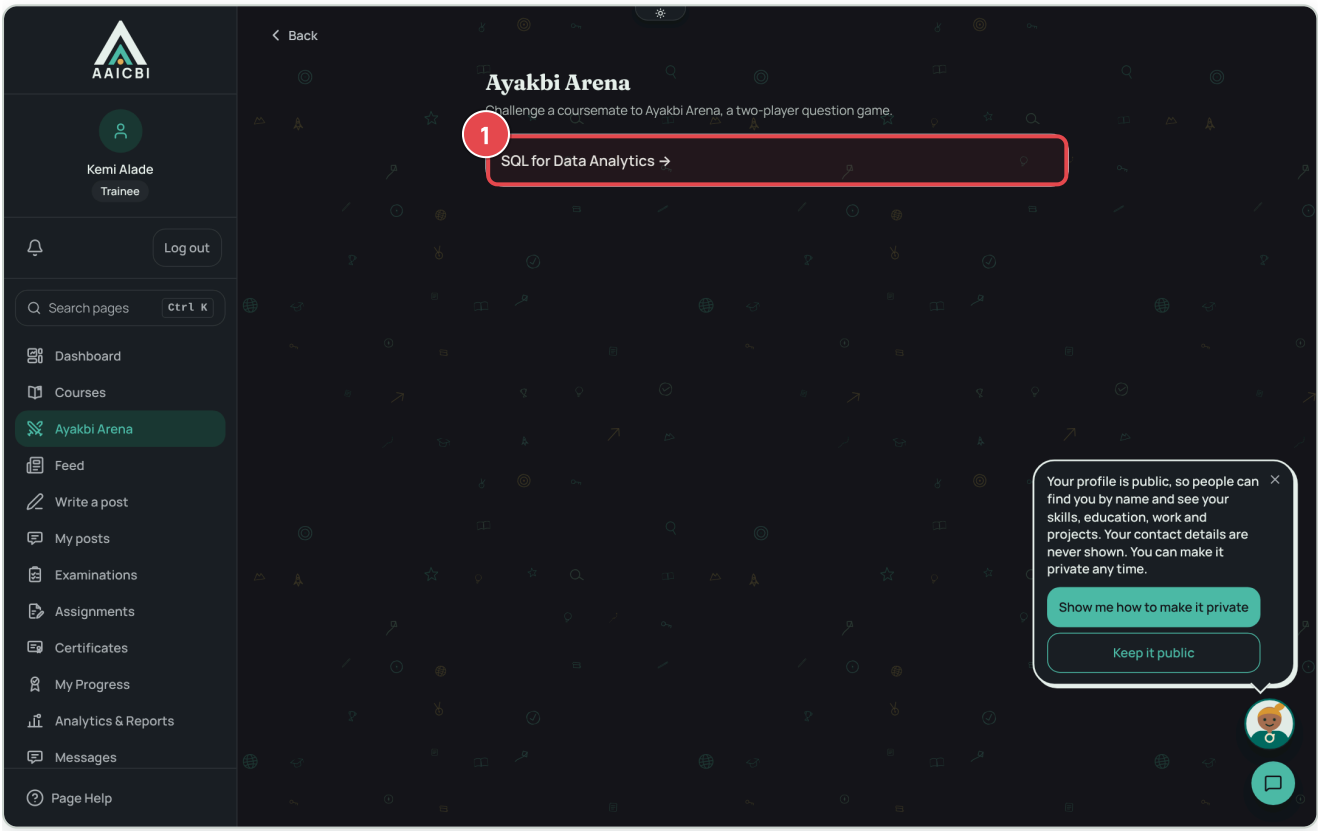

Your training organisation's moderators and AAICBI can remove messages, pause your participation for a time, end a game or warn you. If you are paused, the lobby tells you why and until when. You can still read your lessons and take assessments.

8 Playing Educational Games

Games make practice fun. They are optional, free of pass or fail, and only appear where your course has them switched on.

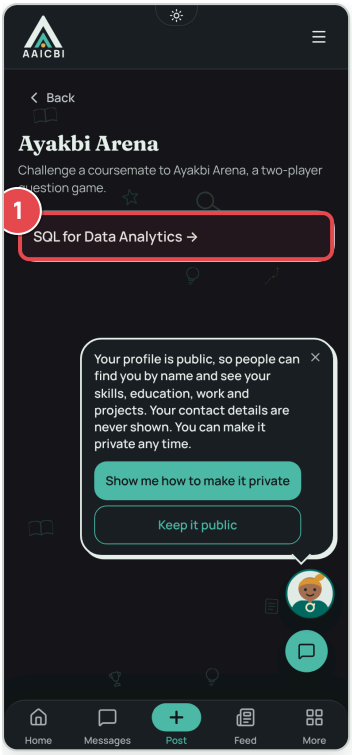

Where games appear

- **Practice and course games** in a module: quizzes, matching and ordering questions and scenarios.
- **Ayakbi Arena**: a two-player question game with a course chat.
- **Games on the feed**: a taste of a course that you can try without an account.

1 Choose a course to open its arena.

COMPUTER

PHONE

1 Choose a course to open its arena.

Figure 15. Ayakbi Arena lists the courses where it is open.

Practice games

In a module open **Practice**. Questions come in rounds of ten. After each answer you see whether it was right, the correct answer and why. At the end a summary shows your score and the answers to review. A streak and small celebrations are only for fun. Sound is off until you switch it on in the game.

Ayakbi Arena: playing with another trainee

TASK **Challenge a coursemate**

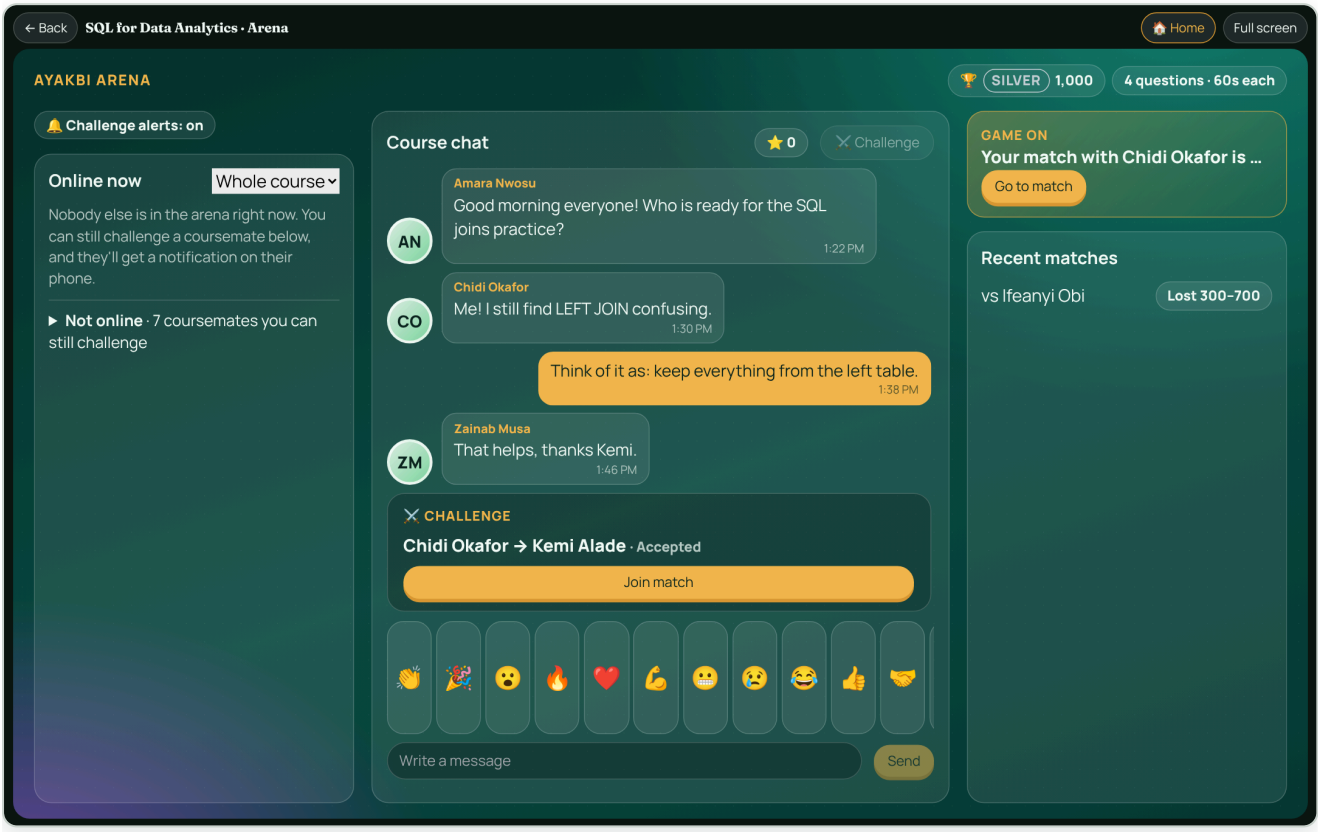

Before you begin The Arena is switched on for your course.

Steps

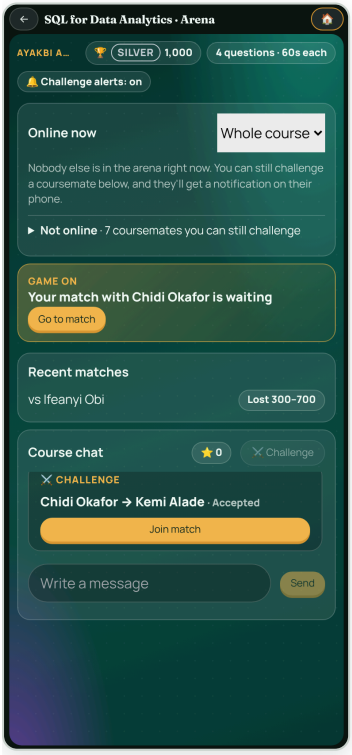

1. Open **Ayakbi Arena** and choose the course.
2. In the lobby find a coursemate (the list shows who is online and who is not) and select to challenge them. You can also use the ⚔️ button in the course chat.
3. Wait for them to accept. They are notified in their bell and on their phone if alerts are on.
4. When the game starts, answer the question before the timer runs out. If one player misses, the other gets a short chance to answer for extra points.

Expected result The game plays one question at a time with a scoreboard, then a result screen with your score and ladder points.

> **If it does not work** If nobody answers your challenge it expires, you are told, and you can challenge again or message them in the chat.

COMPUTER

PHONE

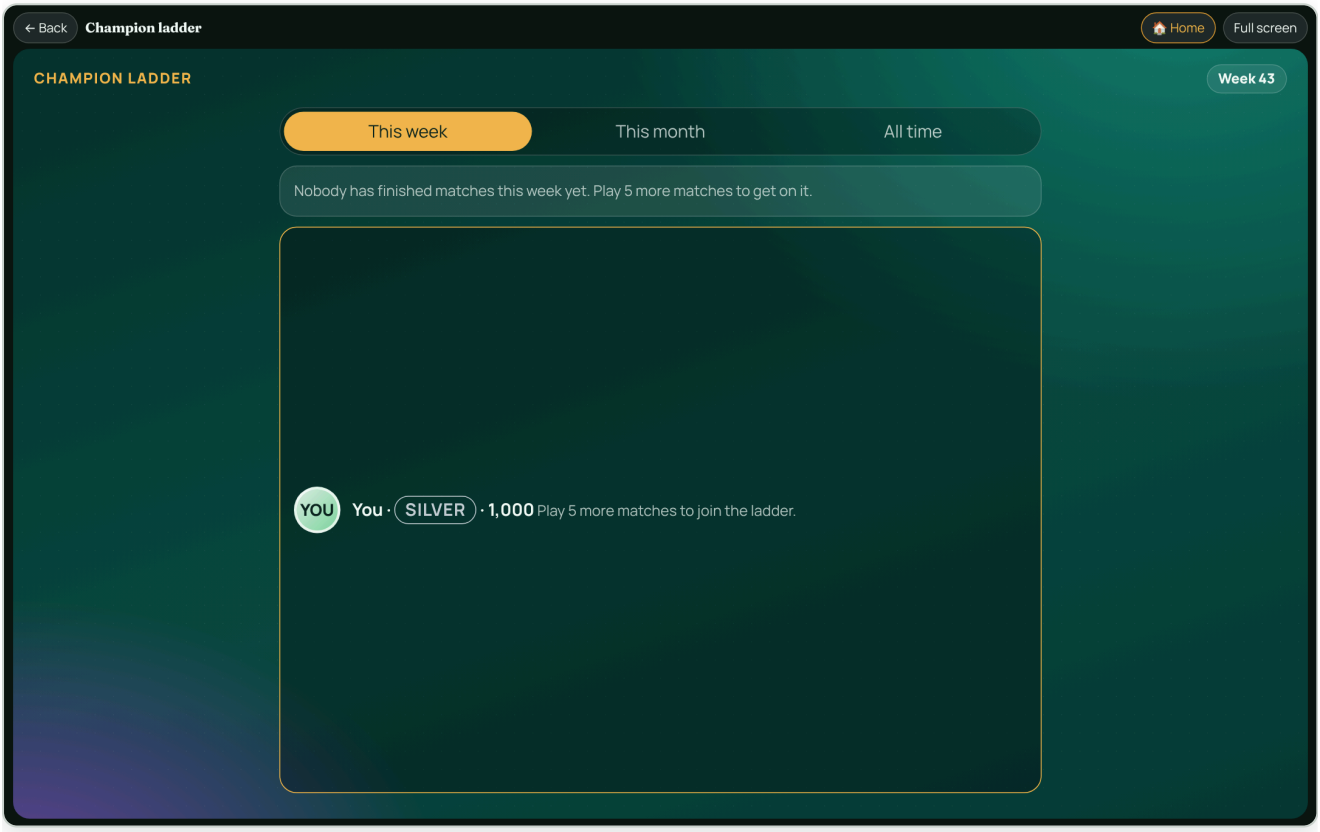

Figure 16. A course's arena: who is online, challenges and recent matches.

Group chat games: Fastest Fingers

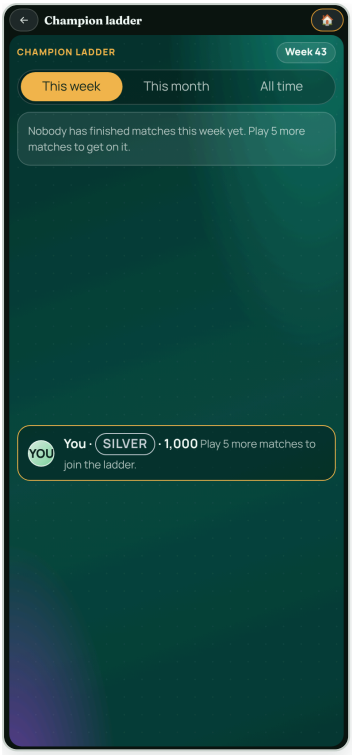

Your instructor may post a quick question in the course chat as a card. Answer it first and correctly to earn credits; everyone sees who won. Your credit total for the course is shown in the chat.

Scores, results and leaderboards

After each game you see your score. The **ladder** of each course ranks players by rating and tier (Bronze, Silver, Gold, Platinum, Champion). You appear after five counted games. A weekly champion is announced in the chat.

COMPUTER

PHONE

Figure 17. A course ladder.

Game rules and moderation

- Play fairly: no cheating and no abuse in match chat.
- You can leave a game with **Quit**; the other player wins. You can also pause (a limited number of times).
- If you are reported, a moderator may warn you, pause your participation or end the game, and records a reason.

If something goes wrong

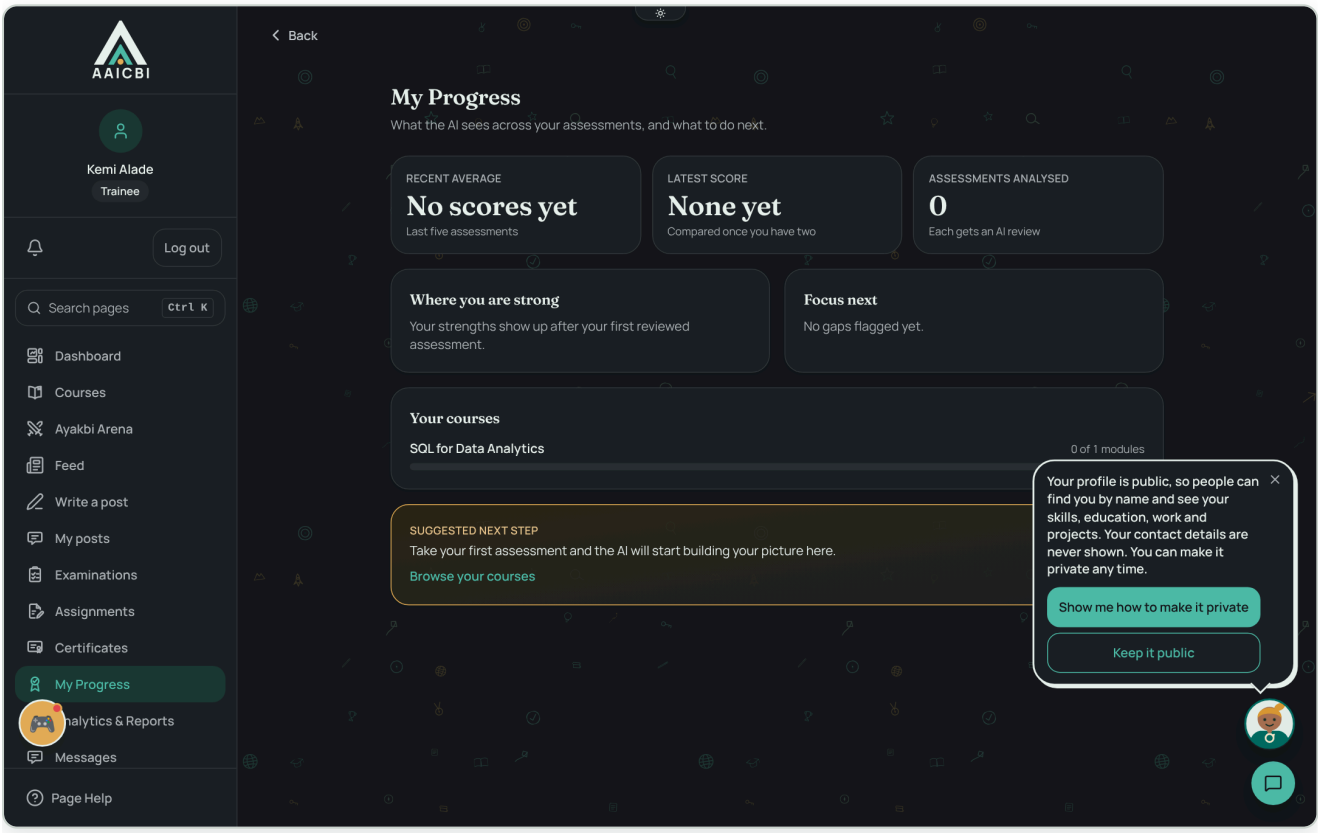

Problem	What to do
A game will not load	Check your connection, refresh the page and open the Arena again. If you left a game, a gold bar at the top lets you return.
A session ended unexpectedly	A moderator may have ended it, or a player quit or lost connection. Check your notifications for a message.
A result looks wrong	Message your instructor with the time and the other player's name. Moderators can review a match.
I cannot start games	You may be paused in that course (the lobby says so), or the Arena may be off for the course.

9 Understanding Your Results and Progress

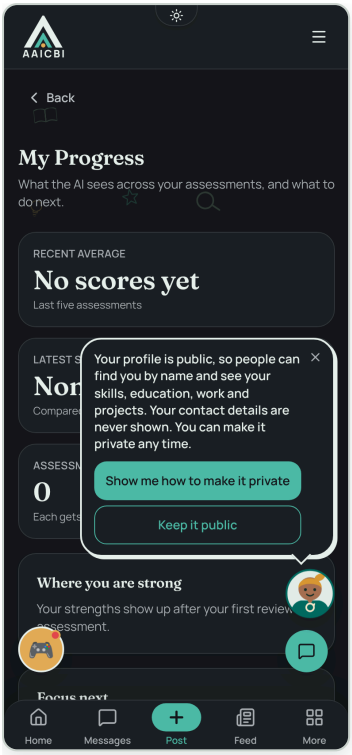

Where to see how you are doing, and how to use feedback to improve.

My Progress

Open **My Progress**. It shows what the platform's AI sees across your assessments and what to do next: your **Recent average** (last five assessments), your **Latest score** and how it compares with your earlier average, and how many **Assessments analysed**. **Where you are strong** and **Focus next** name topics. The **AI review of your latest assessment** gives short written feedback. **Your courses** shows a progress bar for each course.

COMPUTER

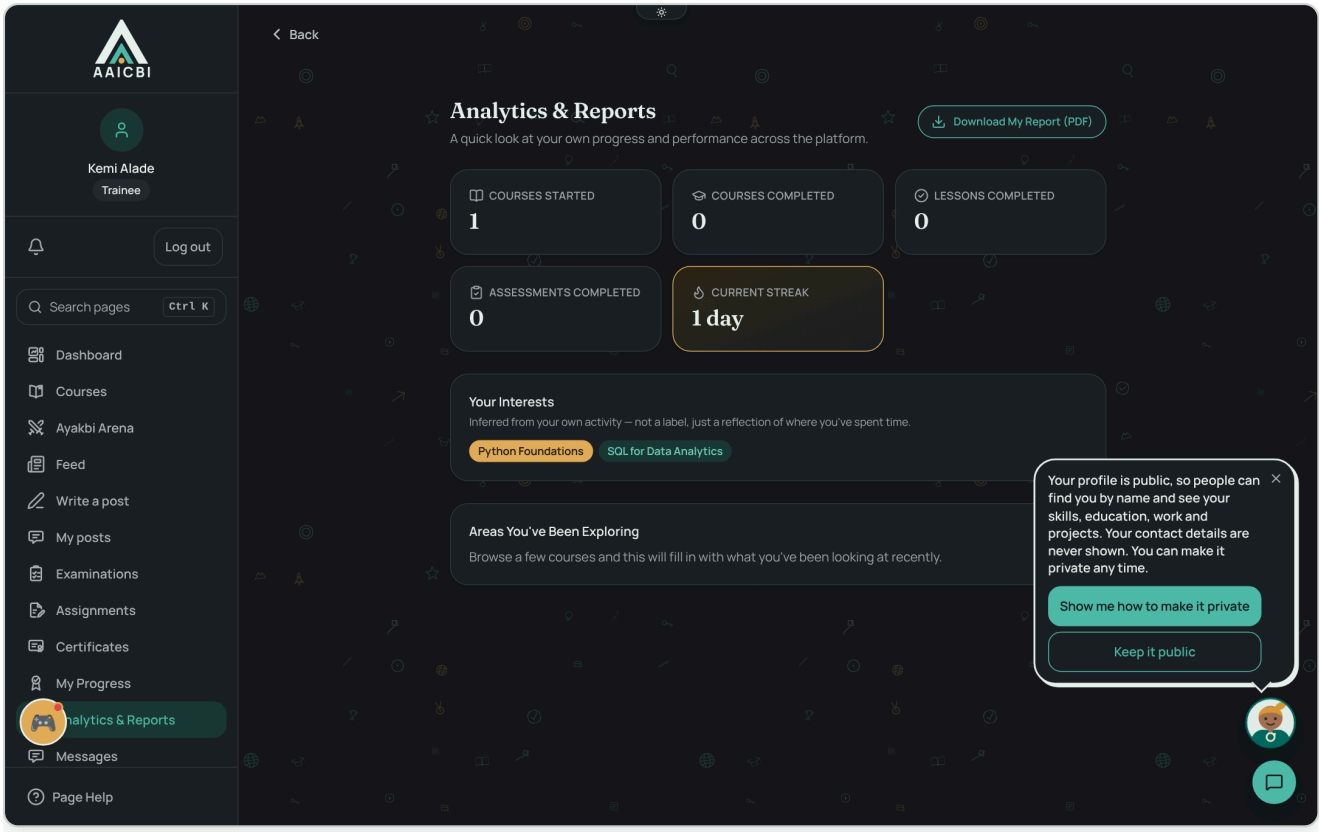

PHONE

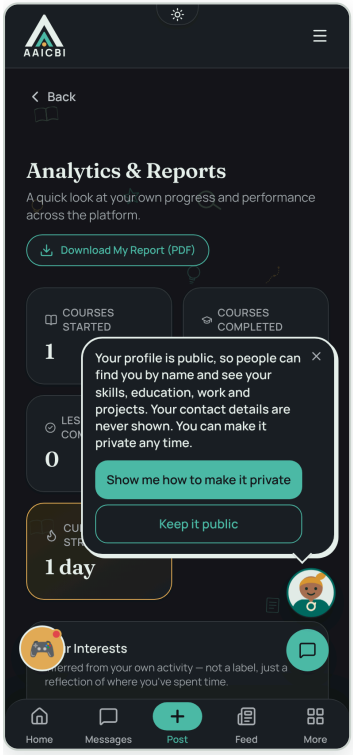

Figure 18. My Progress: strengths, what to focus on next and progress in each course.

Analytics & Reports

Analytics & Reports shows your activity: **Courses started**, **Courses completed**, **Lessons completed**, **Assessments completed** and your **Current streak** of days. **Assessment Performance** lists how many you passed and failed, your average and highest score. **Your Interests** lists topics you spend time on. Select **Download My Report (PDF)** for a copy.

COMPUTER

PHONE

Figure 19. Analytics & Reports.

Examination results and certificates

- **Examinations**: each row shows your status and **View result** for completed ones.
- **Certificates**: certificates you earned, with a verification link anyone can use.

- Game scores and ladder position are in **Ayakbi Arena** (Chapter 8).

Using feedback to improve

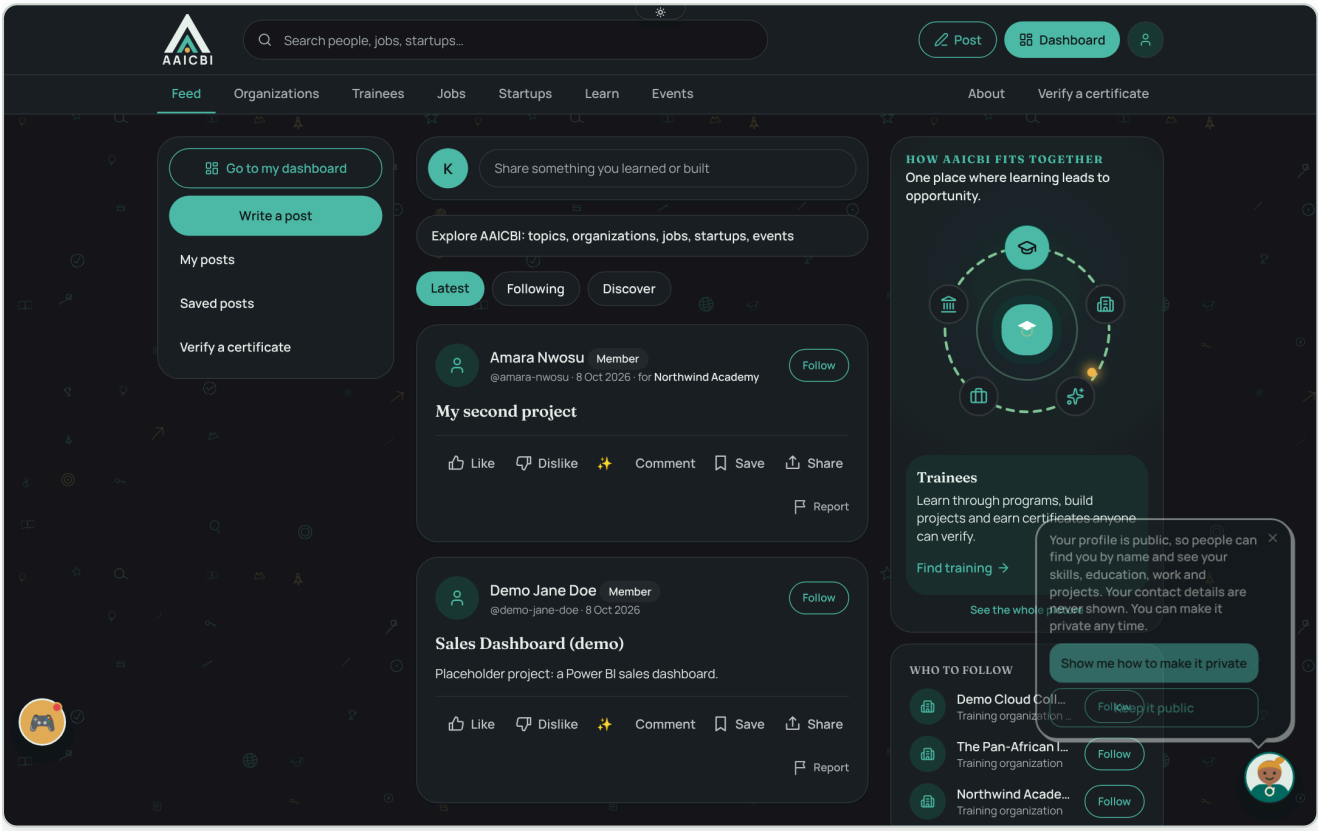

- Read the explanation for every question you miss, not only the score.
- Start with the topic named under **Focus next**.
- Use **Practice** for that topic before retaking an assessment.
- Ask a question in the lesson **Q&A** or message your instructor.
- A score that goes up and down is normal; look at the trend, not one result.

10 Using the Feed and Social Features

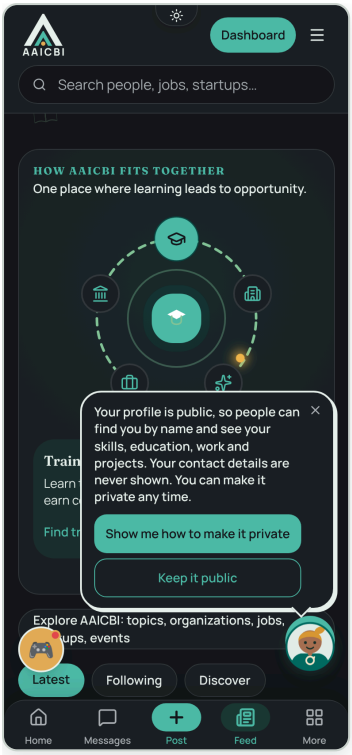

The feed is where members and organisations share what they learn and build.

Reading the feed

Open **Feed**. Posts appear under **Latest**, **Following** and **Discover**. Select a post to read it, like or save it and comment. People you follow appear under **Following**. **Saved** posts are kept for later.

COMPUTER

PHONE

Figure 20. The feed.

Writing a post

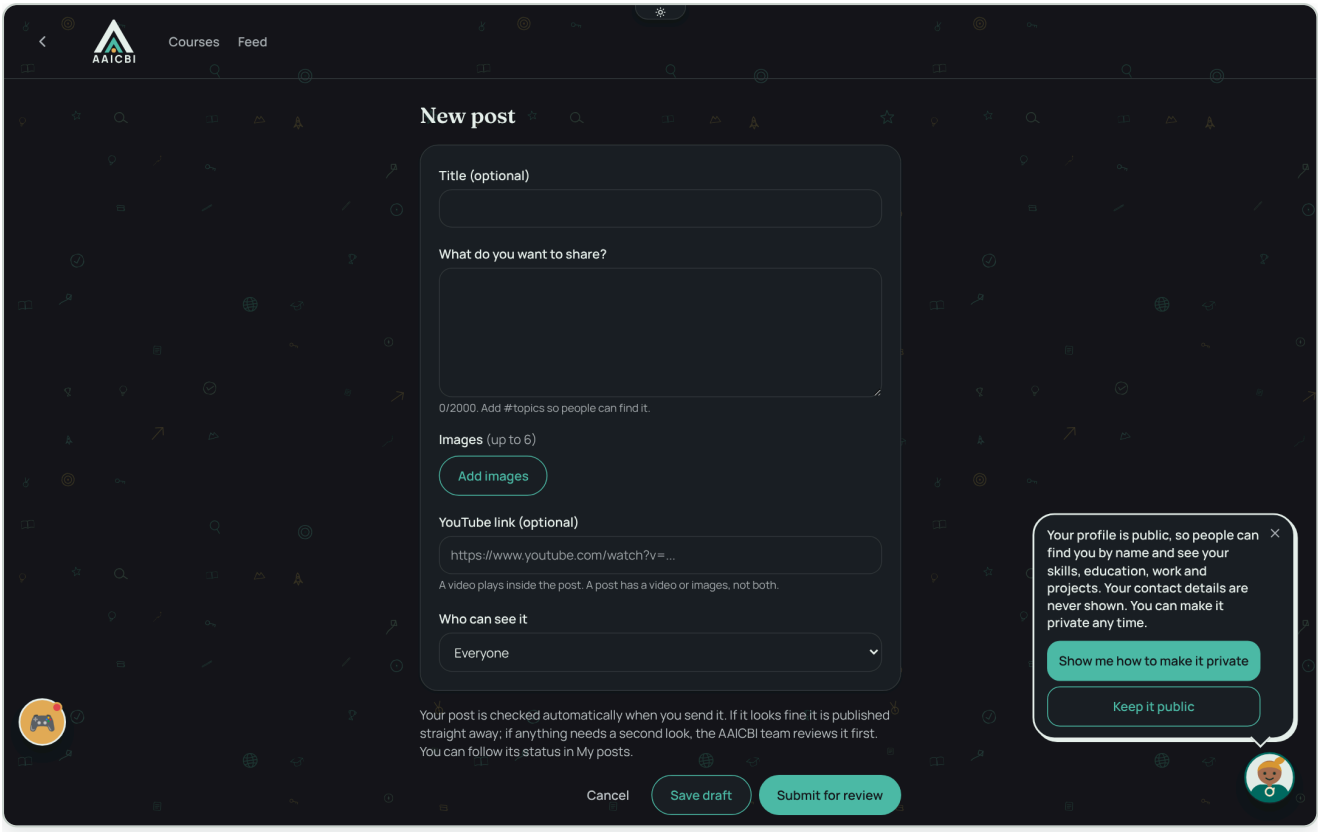

TASK **Share something you learned or built**

Steps

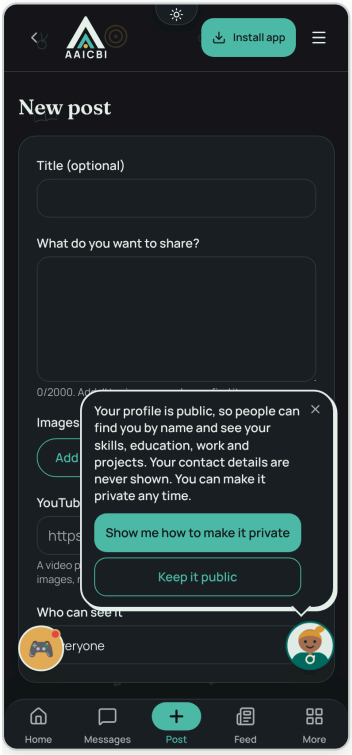

1. Open **Write a post** (or the round **Post** button on a phone).
2. Add a **Title** if you like and write your text. Use #topics so people can find it.
3. Optionally add up to six images, or one YouTube link (a post has either a video or images, not both).
4. Choose **Who can see it**.
5. Select **Submit for review** or **Save draft**.

Expected result Your post is checked automatically. If it looks fine it is published straight away; if it needs a second look the review team checks it first. **My posts** shows the status.

If it does not work A post that needs changes is returned with a reason in **My posts**; edit it and send it again.

COMPUTER

PHONE

Figure 21. Write a post.

Community standards

- Be respectful; no harassment, hate or threats.
- Share your own work or give credit.

- Do not post private details about yourself or others.
- Training organisations can ask for a post that mentions them to be kept off the public feed (with a reason you can read and appeal).

Discovering members

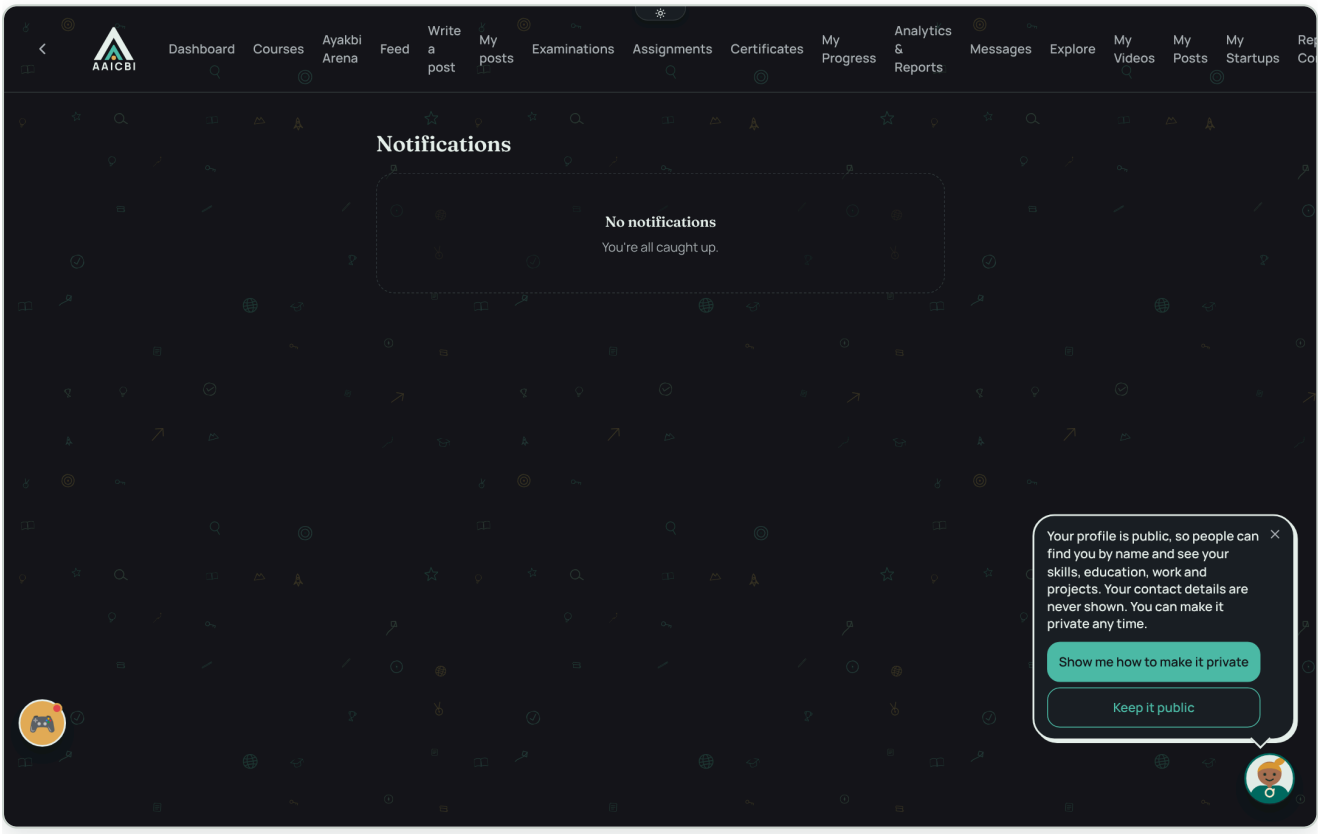

Search for **People**, open a profile and follow them. Profiles show what the person chose to share.

11 Notifications, Messages, and Account Settings

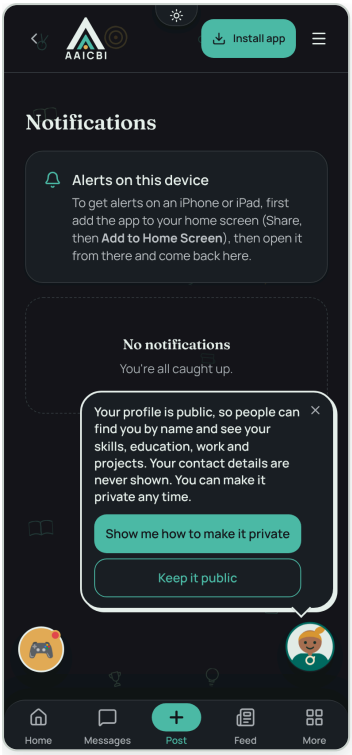

Stay informed, stay in touch and look after your account.

Notifications

The **bell** lists alerts; open **Notifications** for the full list. A red number shows what is new. You can allow notifications on your phone from **Settings** so important alerts, such as game challenges, reach you even when the app is closed. On an iPhone, add AAICBI to the Home Screen first.

COMPUTER

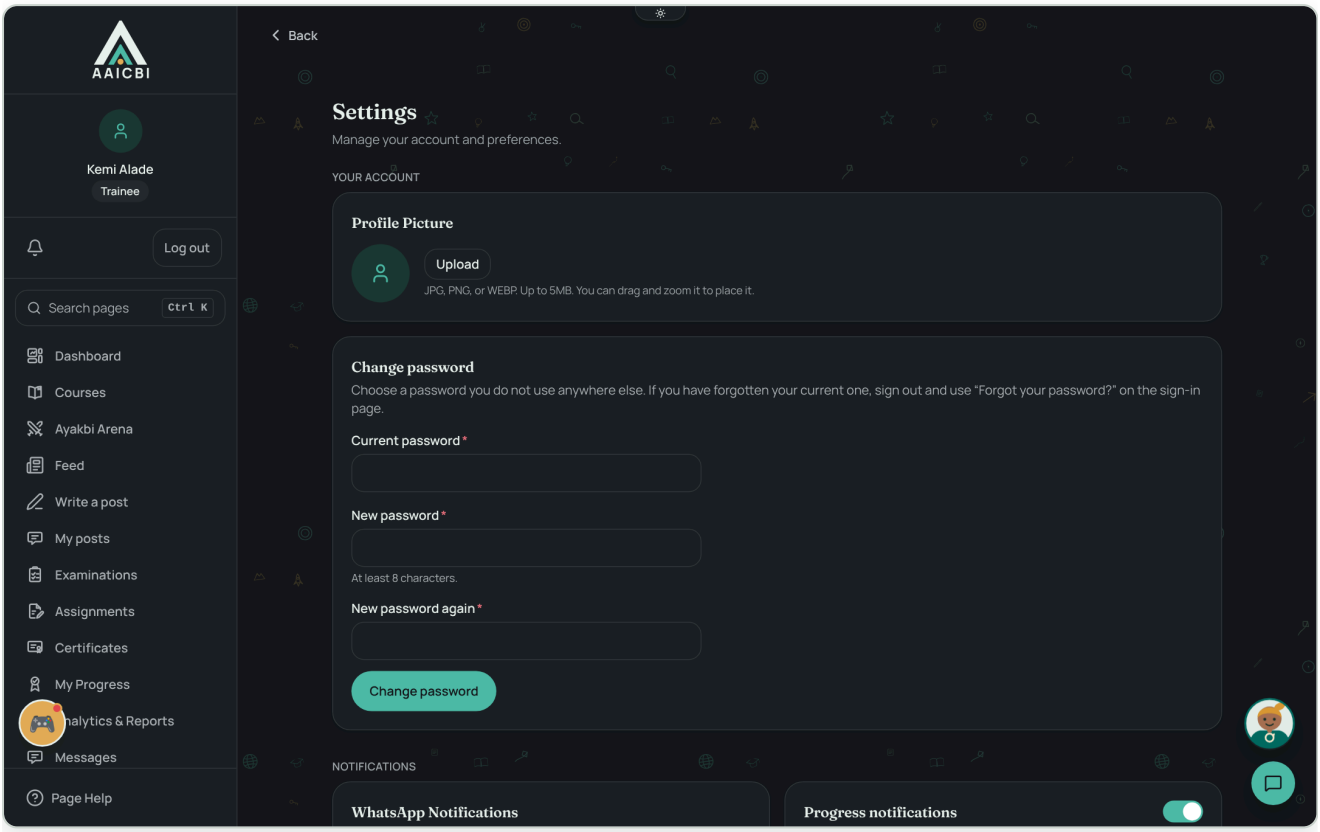

PHONE

Figure 22. Notifications.

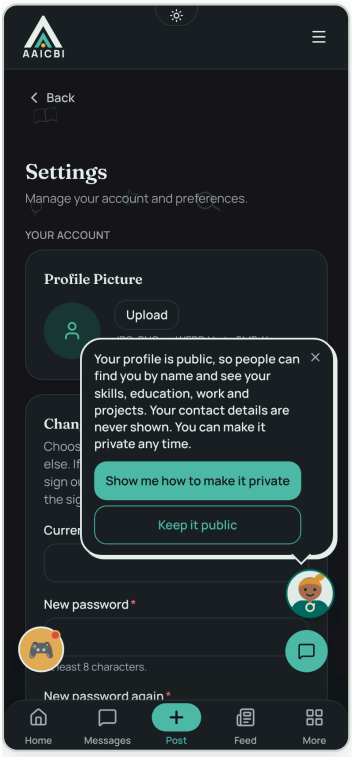

Messages

Open **Messages** for conversations with instructors and organisations, and use the round Messages button for your course chats too. Employers may also write to you after an introduction you accept.

Settings

COMPUTER

PHONE

Figure 23. Settings.

Setting	What it does
Profile Picture (Your account)	Select **Upload** (JPG, PNG or WEBP up to 5 MB; you can drag and zoom to place it).
Change password (Your account)	Enter your current password, then the new one twice, and select **Change password**.
Progress notifications (Notifications)	A switch: email me when I unlock the next module and when an assessment result is ready.
Low-bandwidth mode	Lighter pages for slow connections.
AI study buddy	Switch Loop's study help on or off.
Dark mode	Switch to a dark appearance. It follows you across devices.
WhatsApp Notifications	Verify a WhatsApp number with a 6-digit code to receive key updates.
Employer Discoverability	A switch (with **Save**) that lets vetted employers browsing AAICBI find you. Your contact details stay hidden until you accept a specific introduction.
Public Profile Link	Select **Generate Link** to make a shareable link to your profile, useful on a résumé or LinkedIn. It only works while Employer Discoverability is on.

Passwords and logging out

TASK

Change your password

Before you begin You are signed in and know your current password. Accounts that sign in only with Google have no password to change here.

Steps

1. Open **Settings**. Under **Your account** find **Change password**.
2. Type your **Current password**.
3. Type the **New password** (at least 8 characters) and again under **New password again**.
4. Select **Change password**.

Expected result A message says your password has been changed.

If it does not work If you have forgotten your current password, sign out and select **Forgot your password?** on the sign-in page; follow the link in the email.

- If you have forgotten your password, select **Forgot your password?** on the sign-in page and follow the email link.
- Never share your password. AAICBI will never ask for it.

- To log out select **Log out** at the top of the menu (on a phone open **More**). Always log out on shared computers.

Account security advice

- Use a password you do not use anywhere else.
- Be careful with links in messages; open AAICBI by typing its address.
- Review your profile visibility from time to time.
- If you think someone else used your account, reset your password and tell your organisation.

12 Troubleshooting and Frequently Asked Questions

Simple fixes for common problems.

Problem	Try this
I cannot register	Read the red message under the form. Make sure the Privacy Policy box is ticked and your password has at least 8 characters. An email that is already registered cannot be used again — sign in instead.
I cannot sign in	Check your email and password (Caps Lock). If you never verified your email, use **Send the link again** on the sign-in page. Wait a few minutes after too many attempts.
I forgot my password	Select **Forgot your password?** under the sign-in form and follow the email link.
A course is missing	Open **Courses**: only published courses appear. If your organisation arranged access, check the email address they used matches yours.
Learning materials are missing	Some modules unlock after the previous one. Refresh the page. Ask your instructor if a lesson is empty.
I cannot send a message	Check your connection. In a course chat you may be paused by a moderator; the page says why.
I cannot join a group chat	The chat appears only for courses where it is switched on and only if you are enrolled.
A game will not connect	Refresh and reopen **Ayakbi Arena**. Check your connection.
A score is missing or looks wrong	Games and assessments appear after you finish. Message your instructor with the date and the game or assessment name.
The phone menu is confusing	Use the bottom bar and **More**. **Back** at the top left returns to the previous page. The **Loop** button can take you to any page.
Pages are slow	Turn on **Low-bandwidth mode** in **Settings**, refresh, and try a stronger connection.

Frequently asked questions

Is it free? Some courses are free and some are paid. The course card shows **FREE** or **PAID**.

Who can see my profile? You choose under **Profile visibility**.

Can I use it on my phone? Yes. You can also add it to your home screen.

Seeking help

Ask **Loop**, use **Page Help**, message your instructor or organisation, or use **Report a concern** for something wrong with a profile or person. For account problems, see **Getting help** at the end of this manual.

Glossary

AAICBI
Africa's AI Capacity Building Initiative, organised by Futybills Tech Community. The AAICBI Ecosystem is the platform where learning, training organisations, employers, investors and startups meet.

Account type
The kind of account you create: Trainee, Training Organisation, Employer, Investor or Startup founder. You choose it on the **Join** page.

Alert / notification
A short message in the bell menu (and sometimes on your phone) that tells you something happened, such as a reply, a decision or a challenge.

Arena (Ayakbi Arena)
The two-player question game and course chat. It only appears for a course when the AAICBI team has switched it on.

Cohort
A group of trainees who study a course together. Cohorts are managed inside a course.

Course (programme)
A set of modules and lessons, with assessments, that trainees enrol in.

Dashboard
Your home page after signing in. It shows what needs your attention.

Enrolment
A trainee's place in a course. A trainee can only see the courses they are enrolled in.

Fastest Fingers
A quick question an instructor posts in a course chat. The first correct answers earn credits.

Feed
The public stream of posts from members and organisations.

Game session / match
One game of Ayakbi Arena between two trainees.

Gaming Studio
The platform's tool for building games. It belongs to the AAICBI team only and is not available to training organisations or trainees.

Handle
The short public address of a profile, such as `@your-name`.

Leaderboard / ladder
A ranking of players in a course by their game results.

Loop

The friendly guide character found on pages. Loop answers questions about using the platform and can take you to the right page.

Moderation

Keeping play and chat fair: warning, restricting, removing messages or ending a game, always with a reason.

Organisation role

What a team member may do in a training organisation: Owner, Manager, Editor or Viewer.

Seat

A place in your organisation's plan for one active trainee.

Verification

Confirming your email address by opening the link in the message we send you.

Getting help

The pages this manual describes do not publish a support email address or phone number, so none is printed here. Use the in-platform options below.

Support contact — to be confirmed by AAICBI before distribution. Insert the approved help email, phone or support page here.

Until the contact details are confirmed, you can get help without leaving the platform:

- Open the round **Loop** button on any page and type your question. Loop knows the pages and can take you to the right one.
- Use **Page Help** (bottom of the left menu on a computer) for help about the page you are on.
- **Trainees:** use **Messages** to write to your instructor or organisation about something in your course, and **Report a concern** (More menu) if something is wrong with a profile or person.

Document information and revision history

Item	Detail
Document	AAICBI Ecosystem — Trainee User Manual
Version	1.0
Published	20 October 2026
Prepared for	For trainees
Basis	The AAICBI Ecosystem as it runs in the organisation's own environment on the date above. Features that are planned but not available are not described as available.
Screenshots	Real screens captured at 1440 × 900 (computer) and 390 × 844 (phone) from a test environment with demonstration accounts and sample data. Names, courses and numbers are examples only.

Version	Date	Change
1.0	20 October 2026	First edition.

Screens change as the platform improves. If a screen differs from a figure in this manual, the written steps and labels still describe the same task; please report the difference using the contact details to be confirmed by AAICBI.
